QUEEN ELIZABETH SHOPS QUIETLY IN 5TH AVENUE

Belgian King's Consort Is Not Recognized By Sales Women in Stores.

TURNED AWAY FROM MOVIE BY STANDING ROOM ONLY SIGN

King Is Recognized When He Drives Through Streets "Incognito."

New York, Oct. 3.—The King and Queen of the Belgians with Prince Leopold, their apparent to the throne, came to New York today for the first time since their arrival yesterday to the United States by Vice President Marshall and board of the yacht Noma in the Hudson river to make their "formal" entry into New York.

The "Incognito" which the King and Queen chose to assume upon their arrival yesterday was as novel to New Yorkers as was the actual fact of the presence in the city for the first time in history of a reigning king and queen. The "Incognito" proved only partially effective so far as Albert was concerned. When he went for an automobile tour of the city with Prince Leopold the well known face of the "soldier king" was frequently recognized and he was forcibly cheered.

Queen Elizabeth's incognito, aided by a heavy veil and a dark dress, was effective, accompanied by the Baroness De Caraman Chimay, her lady in waiting, and the Baroness De Cartier de Marchienne, wife of the Belgian ambassador to the United States. The queen visited several Fifth avenue department stores and made small purchases from the sales women, who failed to realize the rank of their quiet customer.

In the evening the King and Queen essayed to visit a Broadway moving picture show, but the theatre they visited displayed standing room only. Finally they were forced to abandon the plan.

The queen with her lady in waiting and the Baroness De Cartier de Marchienne, visited a cabaret, accompanied by Baron De Caraman Chimay. King Albert spent the evening chatting with friends.

The royal party will remain in New York until Saturday, when they will start on a tour of the nation which will take them to the Pacific coast and back again to Washington, where they will be received at the White House. The first scheduled stop in Boston, where the royal party is expected to arrive on Sunday morning.

NO IMPROVEMENT IN CONDITION OF PRES. WILSON

Absolute Rest Is Imperative Doctors Conclude After Consultation.

DAUGHTERS ARE ON WAY TO FATHER'S BEDSIDE

Members of Family Not Summoned But Wished To See President.

Washington, Oct. 3.—"The President's condition is unchanged," Dr. Grayson's bulletin issued at 12:15 p. m. today. Supplementing his official bulletin, Dr. Grayson told newspaper correspondents that the President's mind was keen and alert and his physical condition fairly good. He also is taking some nourishment.

Dr. Grayson talked with Dr. F. X. Dercum, the noted neurologist of Philadelphia, over the long distance telephone this morning and will keep in constant touch with him. Dr. Dercum will come to Washington from time to time as Dr. Grayson feels he needs him, while Rear Admiral Sitt, head of the naval hospital here and Dr. Sterling Ruffin, Mrs. Wilson's family physician, will visit the President daily.

The consulting physicians have agreed with Dr. Grayson that the President is suffering from nervous exhaustion brought on by the strain of his work at the peace conference and his recent tour over the country.

Dr. Grayson said the President desired to keep in constant touch with official affairs and that it was only with difficulty that his mind could be diverted.

Washington, Oct. 3.—There was no improvement in President Wilson's condition this morning and Rear Admiral Grayson, his physician here, and other consultants with Rear Admiral Sitt of the naval medical school, and Dr. Sterling Ruffin, Mrs. Wilson's family physician, who participated in yesterday's decision to confine Mrs. Margaret Wilson, the third daughter is now in Washington.

The president slept some last night. With him is a trained nurse who is assisting Mrs. Wilson in caring for the patient. The president has been in bed since the day he was stricken, and his heart action is good, it was said at the White House.

Mrs. William Gibbs McAdoo, and Mrs. Francis Sayre, daughters of the president are on their way to Washington. Mrs. McAdoo will arrive this afternoon. Mrs. Sayre is coming from Williamstown, Massachusetts. It was said that while members of the family had not been summoned to Washington, Mrs. McAdoo and Mrs. Sayre expected a decision to come. Mrs. Margaret Wilson, the third daughter is now in Washington.

Admirals Grayson and Sitt, and Dr. Ruffin, were in consultation for about two hours today. The president has been in bed since the day he was stricken, and his heart action is good, it was said at the White House.

Orders of the physicians that the president be kept absolutely quiet will be strictly enforced. Secretary Tumulty said today that the president's condition was brought to the executive's attention no matter how pressing. Mr. Tumulty said and no one except the members of the immediate family will be permitted to see him.

The president was informed late yesterday of the defeat in the senate of treaty and of the ratification of the treaty by the French chamber of deputies. (Continued on Page 17, Col. 4)

SEEK CONFERENCE TO END STRIKE

London Officials and Rail Union May Be Brought Together to Negotiate Settlement.

London, Oct. 3.—Negotiations between the government and railway representatives today in an effort to bring the authorities and the railway representatives together for a settlement of the railway strike. Crowds thronged Downing street this morning in expectation of a description of the conference between the transport workers representatives and other trade unionists with Premier Lloyd George in an endeavor to mediate in the strike situation. The crowds were ordered but the police, nevertheless caused them to quit Downing street and move into White Hall.

Earlier in the day J. H. Thomas, the railway union secretary, announced that the members of the union which took part in the Downing street conference yesterday was unanimous in support of the national union of railway men in refusing the government's offer regarding a settlement. The government continues to be the most resolute of the railway strikers before the negotiations could be reopened, but it appeared that the labor leaders objected both to this proposition and to the carrying out of government's order to hold back the day of the men for the last week they worked before the strike.

STRIKE DEADLOCK IS MAINTAINED

Unions Continue Fight, They Say, For Right of Free Speech—Foster Gets New Report.

Pittsburgh, Oct. 3.—Evidence of another serious attempt on the part of the government to break the steel workers' strike in the Pittsburgh district, when the third week of the walkout begins, were apparent today when reports came from company sources that proposals were being made to open negotiations with the strikers in other words providing for a large return of men.

From Donora, Penna., Mingo Junction, Ohio, and Weirton, W. Va., came reports that efforts will be made to resume work Monday. In the immediate Pittsburgh district plants are cleaning up with a view of starting up. Steel company officials declare that many men have signified their attention to return to work.

NO TRACE OF BALLOON MISSING 36 HOURS

St. Louis, Oct. 3.—Fear for the safety of Captain Carl W. Dammann and Lieutenant Edward J. Verheyden, pilot and aid, respectively, of the Wichita Aero club entry in the national citizenship balloon race was expressed today by Major Albert Bond Lambert, an official of the race.

No word has been received from them since they took the air shortly after 6 p. m. Wednesday when the race started from here.

Apparently the "Ohio" the smallest of the ten balloons in the contest has traveled farthest of any of the six which have landed. Captain Warren Rouser, its pilot, telegraphed he descended at 1 p. m. yesterday at Perry Sound, Ontario, several hundred miles north of Simcoe county, where the Murphysboro Illinois entry came to earth.

The gas capacity of the "Ohio" is 50,000 cubic feet, 30,000 less than the other contestants.

WHEN MOBS SPREAD DEATH AND RUIN IN OMAHA

Red Cross workers standing before their offices in new county courthouse destroyed by fire; youth, on horseback said to be relative of girl assaulted, and Mayor Edward P. Smith.

Omaha has been under martial law since race riots broke out in that city Sept. 22. The riots followed the assaulting of Agnes Loebach by a negro. A mob stormed the courthouse to get the

negro. When Mayor Smith attempted to halt them they placed a rope around his neck and were "stringing him up" when police rescued him. Then the mob set fire to the courthouse to drive out

the sheriff's force and prisoner from the jail on the upper floor. The courthouse, a new structure, was totally destroyed. The negro was murdered by the mob. Several persons were killed and injured.

BELIEVE TROOPS WILL KEEP ORDER

Pacification of Disorderly Area in Arkansas Is Thought to Be Well Under Way—Nineteen Dead

Helena, Ark., Oct. 3.—With military control established at Elaine, 18 miles south of this city, center of the negro disorders which for 48 hours have thrown Helena and Phillips county in turmoil, and other villages where the negro population predominates, the task of pacification was declared well under way today.

Two negroes who failed to obey a command of a military patrol early today, were fired on by the soldiers near Elaine and killed, and another was wounded. A fourth member of the party was arrested. Otherwise with the exception of the firing of several shots, comparatively quiet prevailed in the country districts.

The white casualties as a result of clashes which occurred at intervals since the first outbreak Tuesday night, stood at five dead and five wounded. With the exception of Ira Proctor, a deputy sheriff who was seriously wounded, all of the injured were reported recovering.

So with more than 200 negroes have been taken into custody by the military and held under guard at Elaine. About 60 arrests have been made by the civil authorities.

The known negro dead to date was 14. Other bodies reported in the Elaine area where most of the fighting occurred.

A large amount of literature tending to show that the outbreak was due to propaganda circulated among negro tenant farmers, making rosy promises if the negroes would stand together and arm themselves has been taken possession of by the military and civil authorities. The agitators, the literature indicates, represented themselves as agents of the federal government and gave promise of 50 cents a pound to be paid for cotton directed to the small farmer to replace the method of settlement now in force between the land owners and tenant.

The race trouble, late reports indicated was fermented by agitators who had aroused the negroes to participate in organized uprising and the authorities were determined to prevent further trouble by obtaining possession of all fire arms in the hands of negroes in the district.

An announcement made at military headquarters in Elaine said that about 150 rifles had been taken from negroes. Wholesale arrests of negroes have been made according to officials who announced today that 255 prisoners had been taken up to date. Of that number 225 were under guard by federal troops at Elaine and 60 had been brought here.

The known white dead in connection with the fighting remained at five, including one soldier, Corporal Luther Earles whose father lives in Stotesbury, W. Va., five white men have been wounded. Eleven negroes are known to have been killed and officials say that number probably would be increased when outlying spots where skirmishes took place have been searched.

The feeling prevailing among officials here today was that the worst of the trouble was over.

AUTO ACCIDENT REVEALS LIQUOR STILL IN MACHINE

Youngstown, Oct. 3.—When Mike Morganovich's automobile was struck by an ambulance here last night, the crash uncovered a still in his car, which police say Morganovich was taking to East Youngstown, where two whiskey stills have been seized lately. Morganovich and a companion were arrested.

ARREST 75 FOR RIOT AND ARSON IN OMAHA

Omaha, Neb., Oct. 3.—Governor McKelvie, assisted by state agents, today continued his investigation into the causes of the riots last Sunday which resulted in the lynching of a negro, an attack of the mob on the mayor of Omaha, the killing of two white men and the burning of the county court house.

More than 75 men and boys are under arrest, charged with participating in the riots and the police say many others will be taken into custody.

Major General Leonard Wood, who has been in personal command since Monday of the federal troops, sent here to preserve order, planned to leave for Chicago tonight. He said conditions were such that the troops now on duty would be gradually retired, although forces stationed at Forts Omaha and Crook would be strengthened and trained for riot duty.

The negro suspect arrested after the attack on a white woman Wednesday on the border of the "black belt" was released by order of the military forces.

D'ANNUNZIO TERMED FACTIONAL DESPERADO

Cleveland, Oct. 3.—Gabriele D'Annunzio, the Italian poet, who is reported to have led Italian troops into Fiume, was termed "a factional desperado" trying to impose, through black mail, a solution of the Adriatic question" in resolutions adopted by the National Jugo Slav Republic Alliance at its closing session here last night.

The convention commended the attitude of the Jugo Slav population of Fiume for "their dignified behavior in face of provocations." A political, social and economic platform was adopted and will be sent to the Jugo Slav nation for adoption.

ASK JUGO SLAVS TO AVOID ALL CLASHES

Paris, Oct. 3.—Complying with suggestions made by various members of the European council, the Jugo Slav government it is learned has given special instructions to all Jugo Slav officers to avoid clashes with the Italians. This precaution was advised because there appears to be general belief among the peace conference delegates that certain elements between the Italians are seeking trouble with the Jugo Slavs as an excuse for the seizure of additional territory along the Dalmatian coast.

AMENDMENTS TO TREATY REJECTED

Senate Votes on 36 of 45 Restrictions Proposed by Senator Fall of New Mex.

Washington, Oct. 3.—Having disposed of all except one of the Fall amendments to the peace treaty by a majority of negative votes, the senate was prepared today to take up other features of the pact.

The future course of the senate in its consideration of the treaty with its League of Nations covenant was undecided early today, but it was expected that leaders would soon agree on a program to be carried out in the effort to speed up action.

There remained today the unacted on amendment proposed by Senator Fall, Republican, New Mexico, to limit American representation to the reparations commission, six amendments to the league covenant and two minor amendments.

The vote on the Fall amendments still continued today to be interpreted in varying lights. Treaty supporters considered the vote a distinct victory for their forces while leaders of the opposition said the result of the roll calls could only be looked on as a victory for them.

The treaty fight recorded the stage of action in its consideration of the peace treaty yesterday and the senate swept aside in quick succession 36 of the 45 amendments which had been written into the document by the foreign relations committee.

The smallest majority recorded against any of the committee proposals was 15, and the largest 28. All of the amendments considered had been introduced by Senator Fall, Republican, New Mexico, and were designed to curtail American participation in European settlements resulting from the war.

Senator Pomerehne voted against the amendments and Senator Harding for them.

RAIL UNIONS WILL NOT SET IN CONFERENCE

Washington, Oct. 3.—Railroad unionists representing more than 2,000,000 workers will not participate in the industrial conference called by President Wilson for next Monday unless the basis of labor's representation is changed to include the chief executives of all international and national unions.

Timothy Shea of the Brotherhood of Firemen said today the change in representation had been suggested to Director General Hines, but that no reply had been received and none was expected. Because of this, he said, the four brotherhoods did not expect to go into the conference and it was thought the other railroad unions affiliated with the American Federation of Labor also would not participate.

YANKS GO TO CANADA

Ottawa, Oct. 3.—Approximately 7,000 men American emigrated into Canada in the first eight months of 1919, according to official figures made public here today. Of the 35,222 persons who this year crossed the border more than half were farmers.

Fisher Foozles Plays At Critical Stages In Contest In Chicago

KERR PITCHES GILT EDGED BALL FOR GLEASONS'S CREW TURNING REDS BACK IN EVERY ATTACK.

THROWING OF RARIDEN HELPS TO BREAK UP SCORING COMBINATION

Moran's Team Fails to Show Punch So Apparent In First Two Games At Cincinnati—Pat Pulls Fisher In Eighth Inning and Sends In Luge.

Cincinnati 0 0 0 0 0 0 0 0 0—3—1
Chicago 0 2 0 1 0 0 0 0 x—3—7—0

Comiskey Park, Chicago, Oct. 3.—Kerr's phenomenal pitching gave the White Sox the victory in the third world series game here today, the score being 3 to 0. Kerr allowed the Cincinnati Reds three hits, scattered through as many innings, and one base on balls, and at no time during the entire game, were they even in a dangerous position to score. Fisher pitched fair ball for Cincinnati but his fielding was not so good, an error by him being a contributing factor in the White Sox scoring. The Sox, however, obtained seven hits and several of them were at fairly opportune times.

First half—Rath up. Strike one. Foul strike two. Ball one. Foul. Rath was out. Strike two. Ball one. Foul. Rath was a slow grounder and easily handled. Daubert up. Ball one. Daubert flied out to Felsch. Groh up. Ball one. Strike one. Felsch. Groh struck out. He missed the last strike, which was a low one over the outside corner. No runs, no hits, no errors.

Second half—Liebold up. Strike one. Ball one. Liebold sent a line drive to Neale. The latter came in fast and got it at his shoe tops, turning a somersault, but holding the ball. Ed Collins up. Ed Collins out, Fisher threw. Weaver up. Ball one. Strike one. Foul. Strike two. Weaver sent a high lob to Daubert. No runs, no hits, no errors.

CLOSED SHOP IS NOT AN ISSUE IN STRIKE IS CLAIM

Union Leader Tells Senate Committee That Steel Corporation Invites Anarchy By Refusing to Arbitrate.

Washington, Oct. 3.—In refusing to arbitrate the steel strike, Elbert H. Gary, chairman of the board of the United States Steel Corporation, "is sowing the seeds of anarchy," the senate committee investigating the strike was told today by Michael F. Tighe, president of the Union of Iron, Steel and Tin Workers.

"It was very much put out yesterday by Judge Gary's refusal to compromise or arbitrate this issue," said Tighe. "He is sowing the seeds of anarchy, promoting the insurrection, doing it by his employees, foremen and superintendents. It was far and away from being the truth about the industry."

Tighe reiterated that the closed shop was not an issue and said the union leaders could not comply with President Wilson's request to postpone the strike until after the industrial conference next week because the I. W. W. organizers were active among the men and would have succeeded in calling some "sporadic strikes."

Information given to you by Judge Gary," Tighe said, "was not first hand evidence gained from practical knowledge of the industry, but instead consisted of the statements made to him by his employees, foremen and superintendents. It was far and away from being the truth about the industry."

Tighe repeated the charge that the steel corporation early in its history had appropriated \$20,000,000 to fight unions and gave names of its informants. (Continued on Page 2, Col. 3)

SURVEY SHOWS COAL SHORTAGE

Chamber of Commerce Finds Coal Bins Have Not Been Filled—Warns Consumers to Act.

A public survey of the coal situation has been made in Newark by the Chamber of Commerce and it was ascertained that the coal dealers are from 150 to 500 tons short on the orders placed. The survey also disclosed that the people are not buying their coal at the present time, but are waiting and they face the very grave possibility of a coal shortage and of an increase in price as coal has been advancing 25c on the ton each month. The prospect is that the rate increase will continue.

Some of the dealers in the city find that there is not as much coal in the bins of the consumers as is usual at this time of year. The chamber urges that everyone who can do so, place an order now for their entire winter supply.

As soon as cold weather develops, the railroads will have some difficulty in moving freight with a probability of a gas shortage and the very grave probability of a strike of the miners. If these contingencies arise Newark is going to find itself in a predicament from which it will be hard to extricate itself, chamber officials believe.

The board of directors at a meeting last night felt that some action was warranted by the Chamber of Commerce and a committee consisting of George Upson, chairman, Arthur Mattioli, W. A. Stage and others, was appointed to further inquiry as to the local situation.

FISHER FOOZLES

(Continued From Page 1)

Gandil's easy grounder and scored him with a thro w to Daubert. Riserberg up. Strike one. Ball one. Fisher lost control of the ball and threw it to the backstop. Riserberg tripped to right. The ball got away from Neale and rolled almost to the fence. Schalk up. Riserberg scores on Schalk's easy tap that bounced away from Fisher for a single. Kerr up. Strike one. Schalk was out stealing. Riden to Rath. Ball one. Ball two. Kerr was thrown out Kopt to Daubert. One run. Two hits. No errors.

Fifth Inning. Ball one. Strike one. Kopt sing to right. It was a fast grounder between first and second that Ed Collins couldn't quite reach. Neale up. Ball one. Ball two. Strike one. Liebold drove to Daubert but Gandil made an excellent catch. Daubert up. Ball one. Ball two. Strike one. Foul strike one. Ball one. Ed Collins took Riden's grounder and tossed Ed Gandil, retiring him. Neale reaching second. Fisher up. Ball one. Ball two. Fisher's drive to Weaver was easy, the latter throwing him out at first. Sixth Inning. First half—Rath up. Ball one. Strike one. Rath was thrown out, Riserberg to Gandil. The throw was good but Gandil made an excellent catch. Daubert up. Ball one. Ball two. Strike one. Daubert sent a neasy fly to Jackson, the latter having to move only a step to catch it. Groh up. Ball one. Ball two. Strike one. Weaver came in fast, took Groh's grounder and threw him out at first. No runs. No hits. No errors.

Second half—Jackson up. Strike one. Jackson hit a hard ball that he fell down and rolled over when he missed it. Ball one. Ball two. Foul strike two. Foul. Jackson singled to left. It was a short job that Kopt couldn't get to. Felsch up. Strike one. Jackson's easy single. Riden to Kopt. Ball one. Strike two. Ball two. Ball three. Felsch walked. Fisher was very wild, in his delivery to Felsch. Felsch was out stealing Riden to Rath. Gandil up. Ball one. Ball two. Strike one. Foul strike two. Foul. Gandil struck out, the last strike being called on him. No runs. One hit. No errors.

Seventh Inning. First half—Roush up. Roush hoisted a high fly which Gandil went back and captured. Duncan up. Ball one. Strike one. Ball two. Ball three. Strike two. Foul. Duncan fanned, taking a mighty swing at the third one, but missing it. Kopt up. Strike one. Kopt popped a high fly to Liebold. No runs, no hits, no errors.

Second half—Riserberg up. Strike one. Ball one. Groh came over and got Riserberg's grounder and threw him out at first. Schalk up. Ball one. Foul strike one. Strike two. Ball two. Fisher was using a fast breaking outcurve frequently. Schalk was out, Groh to Daubert, on an easy play. Kerr up. Rath took Kerr's creeping grounder and tossed to Daubert for the third out. No runs, no hits, no errors.

Eighth Inning. First half—Neale up. Strike one. Up to this juncture Kerr had pitched magnificent ball, allowing only two hits and one walk. Ball one. Foul strike two. Neale struck out, swinging at the final offering. Riden up. Ball one. Ed Collins threw out Riden at first. Magee batting for Fisher. Magee up. Strike one. Foul strike one. Magee popped a high fly to Liebold. No runs, no hits, no errors.

Second half—Luque now pitching for Cincinnati. Wingo got into an argument with several Sox players, including Smith, and had to be escorted to the bench. Liebold up. Ball one. Strike one. Strike two. Perfect weather and what promised to be a capcity attendance greeted the Cincinnati Reds and Chicago White Sox in the third game of the world's baseball championship series of 1919 here today.

At noon the far reaches of bleacher stands showed a mass of humanity, a thousand of whom had camped outside the gates all night. The bleachers were about three-fourths occupied, and the left field pavilion was almost filled and the remainder of the reserved seats were being rapidly occupied.

A hand occupied a position near third base and entertained the crowds. The huge grandstand was practically deserted two hours before play began.

At 12:15 a duo of popular song vocalists with large megaphones became busy repeating their selections to the various stands.

When the gates to Consiskey park were opened at 9:25 a.m. the first man to enter the pavilion was Roland Ryan, a wounded soldier from Fort Sheridan who had been standing in line all night. Ryan's home is at Elyria, Ohio, and he is recuperating from wounds received in the Argonne with the 37th division of the United States Army. He appeared at the ticket window at 7 o'clock last night and prepared for a long siege by providing himself with a soap box for a seat. He had a small amount of lunch and a pocket full of cigarettes.

The Reds made their appearance on the field at 12:40 and stuck close to the dugout. They were closely followed by the White Sox who immediately began batting practice. The crowd cheered both teams.

James served up benders to the Gleason line up, which showed that Kerr was taking his regular position in the batting order. Ruchter, Sallee and Sallee warmed up in front of the Cincinnati bench.

The Sox took the field for final practice at 1:45 and Jackson was given an ovation by the left field bleacher fans. Fisher warmed up for Cincinnati and Kerr for the White Sox at 1:50. The umpires came upon the field. Emphre Riger will be behind the plate. Nallin on first. Evans on third.

The umpires held a conference with Manager Moran and Captain Groh. The Reds and Manager Gleason, at which ground rules relative to overthrows were discussed.

REDS HAVE ADVANTAGE AS CHICAGO PLAY STARTS

Chicago, Oct. 3.—Carrying a two-game lead, the Cincinnati Reds today invaded the home territory of the Chicago White Sox for the third contest of the world series—the game many baseball men believe virtually will decide whether the American League pennant winners are to be serious contenders for the championship or face an overwhelming handicap during the remainder of the series.

The Sox, accompanied by some 2,000 Cincinnati rooters, arrived here early today on more than a dozen trains, the Reds confident that they will return to Ohio Sunday night possesors of the baseball's highest honors.

The American League pennant winners are to be serious contenders for the championship or face an overwhelming handicap during the remainder of the series.

The Sox, accompanied by some 2,000 Cincinnati rooters, arrived here early today on more than a dozen trains, the Reds confident that they will return to Ohio Sunday night possesors of the baseball's highest honors.

The American League pennant winners are to be serious contenders for the championship or face an overwhelming handicap during the remainder of the series.

A few light clouds were visible this morning, but according to the weather forecast there will be no rain until tonight, giving promise that the third game of the series will not be interfered with by the weather. Forecast is "partly cloudy and somewhat cooler" followed by showers at night.

Despite the fact that the White Sox, 3 to 2 favorites before the series started, lost two straight games to the National Leaguers, the followers of Comiskey's team were confident that today's contest would be the beginning of a winning streak for their favorites and fans began gathering at the baseball park last night, waiting in line to purchase the general admission tickets placed on sale at 9 o'clock this morning.

In order to prevent tickets falling into the hands of scalpers and to expedite the sale, special arrangements were made by the club management. Each prospective purchaser was required to have the exact change for his ticket ready, the bleacher seats selling for \$1.10 and pavilion space for \$2.20, including war tax. No person was allowed to purchase more than one ticket and after receiving the pasteboard evidence was required to go directly to the park, then thousand bleacher tickets and 6,500 for the pavilions were placed on sale.

Discussion of the series centered this morning largely on who would be given the pitching assignment by Manager Gleason of the Sox. Although Manager Gleason announced last night in Cincinnati that he would probably select Dick Kerr, the sensational young left-hander, there was a general feeling that the younger pitcher would not be called on at such a critical time and that Gleason would switch to one of his veterans before game time.

Eddie Cicotte, leading hurler of the American League, who was wounded from the box in the fourth inning of the first game, and Urban Faber, hero of the 1917 series, are considered the foremost probabilities. Faber, however, has pitched only indifferent ball this season. Kerr is facing his first world series and has just finished his first big league season. The fact that he is a southpaw, however, may bring him the assignment, because of the manner in which "Lefty" Williams yesterday held down the Reds his despite the loss of the game.

For the Reds Manager Moran undoubtedly will pitch "Hod" Eller, or Ray Fisher.

In what little betting was reported today on the series the Reds were 8 to 5 favorites. On today's game there were some bets at even money, but in most cases the White Sox followers demanded odds.

Daylight today saw 5,000 fans gathered at the bleacher and pavilion gates waiting for the 10 o'clock opening but by the time the portals were actually thrown wide, fully 10,000 lined the streets leading to the park. The crowd flanked the crowd on all sides while sailors and marines assisted the officers of the law.

There were hundreds of breaks in long lines where card games have sprung up on improvised tables, while over breakfast time the habit of "holding place" while its occupants grabbed sandwiches and coffee became general and the unwritten law of respecting ownership of a "place" was forgotten. By 5 o'clock the ticket price of a place in the line was \$2 but by 8:30 this had been increased to \$5.

It appeared as though the weather man who rules over the destinies of the Chicago realm refused to be outdone by his contemporary at Cincinnati, for the day as perfect for baseball as either of the two opening days in the Ohio city.

Both teams arrived in good condition and reports from their headquarters indicated that every man would come through the night with not even an attack of nervousness.

"The boys all slept well and are ready to put up the same kind of ball here that they displayed in Cincinnati," said Manager Pat Moran shortly after his aggregation arrived.

Manager Gleason also reported that every man on his team was feeling in great shape, even John Collins, who had a slight attack of cold last morning, having recovered completely.

Back to the gingham frocks, the white shoes, and the palm beach suits. It's awfully nice for baseball, but kinda hard on the worn out summer togery. The thermometer has been hovering around summer heat all week and this afternoon on the regulated thermometer at the J. C. Brown grocery in East Main street it registered 91, which is probably one of the record breakers for the 3rd of October.

Back to the gingham frocks, the white shoes, and the palm beach suits. It's awfully nice for baseball, but kinda hard on the worn out summer togery. The thermometer has been hovering around summer heat all week and this afternoon on the regulated thermometer at the J. C. Brown grocery in East Main street it registered 91, which is probably one of the record breakers for the 3rd of October.

base and entertained the crowds. The huge grandstand was practically deserted two hours before play began.

At 12:15 a duo of popular song vocalists with large megaphones became busy repeating their selections to the various stands.

When the gates to Consiskey park were opened at 9:25 a.m. the first man to enter the pavilion was Roland Ryan, a wounded soldier from Fort Sheridan who had been standing in line all night. Ryan's home is at Elyria, Ohio, and he is recuperating from wounds received in the Argonne with the 37th division of the United States Army. He appeared at the ticket window at 7 o'clock last night and prepared for a long siege by providing himself with a soap box for a seat. He had a small amount of lunch and a pocket full of cigarettes.

The Reds made their appearance on the field at 12:40 and stuck close to the dugout. They were closely followed by the White Sox who immediately began batting practice. The crowd cheered both teams.

James served up benders to the Gleason line up, which showed that Kerr was taking his regular position in the batting order. Ruchter, Sallee and Sallee warmed up in front of the Cincinnati bench.

The Sox took the field for final practice at 1:45 and Jackson was given an ovation by the left field bleacher fans. Fisher warmed up for Cincinnati and Kerr for the White Sox at 1:50. The umpires came upon the field. Emphre Riger will be behind the plate. Nallin on first. Evans on third.

The umpires held a conference with Manager Moran and Captain Groh. The Reds and Manager Gleason, at which ground rules relative to overthrows were discussed.

MISS ANNA WHITE DIES OF PNEUMONIA

Miss Anna White, died at her home in the Hebron road at 11 o'clock today following an illness of pneumonia. She was well known in Newark having been employed at the Griggs company for a number of years as a clerk. She is survived by a sister Mrs. Macia Stevenson, and one brother Frank White, both living on the Hebron road. The deceased was a member of the Fifth Street Baptist church of Newark.

No arrangements have been made for the funeral.

CONTRACT IS MADE FOR TORPEDO PLANES

Cleveland, Oct. 3.—Following a two weeks conference in Washington the Glenn L. Martin company, best airplane manufacturers, announced today that it had contracted with the government for the manufacture of ten torpedo planes designed to fly two hundred miles out to sea and drop torpedoes on enemy ships. The planes will be similar to the present Martin bombers. Each will carry a crew of four, a 2,100 pound torpedo and four machine guns. The gross weight of plane equipped will be about 4 1-2 tons. Construction will start at once, company officials announced.

VETS OPPOSE LEAGUE.

Ashtabula, Oct. 3.—At a meeting of Dewey Howlett post, American Legion, held in the Y. M. C. A. last evening, resolutions were adopted protesting strongly against the adoption by the United States of the covenant of the League of Nations, as now drawn.

INDIANS HONOR PRINCE.

Lethbridge, Alberta, Oct. 3.—Indians of the Lethbridge district have bestowed upon the Prince of Wales the title of "Red Crow," or "Chief Many Smiles." All the old Indian ceremonies were used in the proceedings which took place yesterday when the prince and party stopped here.

FROMHOLTZ CASE CONTINUED.

The hearing in the George Fromholtz liquor case which was set for today was continued by Mayor H. A. Atherton upon the request of the defendant who stated that his counsel was engaged upon another case. The date set was Friday, Oct. 10.

TANK WAGON ABLAZE.

The gasoline motor tank of the Swank filling station caught fire shortly after 1 o'clock this afternoon at Church and Fourth streets. Back firing from the engine ignited gasoline. The squad wagon from Central station was called and extinguished the blaze after the muffler was knocked off. There was but little other damage and the loss was slight.

OFFICE WORKERS ORGANIZE.

Weimar, Sept. 10.—(By Mail).—As the result of the conference between various German organizations, the office workers' central union has been organized. It comprises more than 350,000 members, making it, it is contended, the biggest organization of office workers in the world.

EMPLOYMENT OFFICES CLOSE.

Washington, Oct. 3.—The United States employment service today notified its federal directors to close the state federal employment offices on October 10 because of lack of funds.

MAY RATIFY BY DECREE.

Paris, Oct. 3.—Advices received by the peace conference from Rome have persuaded the members of the supreme council that Italy will ratify the German peace treaty by royal decree. The general opinion in the council that such a ratification will be valid under the Italian constitution, as the treaty does not involve any Italian territorial changes.

NO JUGO-SLAV CABINET.

Belgrade, Oct. 3.—(Havas).—Stojan Prochac, premier of Jugoslavia, has failed in his effort to form a new cabinet to take the place of the one which resigned a short time ago.

ROYAL INSIGNIA REMOVED.

Berlin, Sept. 17.—(By Mail).—The government will issue shortly a sweeping decree ordering the removal of monarchical insignia, emblems and designations of all kinds from buildings, letterheads, seals, rubber stamps, brass buttons, or wherever they are affixed.

CLEVELAND MAY GET A. F. L.

Cleveland, Oct. 2.—The 1920 convention of the American Federation of Labor met here today. Mayor Davis today received a telegram from Frank Morrison, secretary of the federation asking about convention accommodations, explaining that the recent convention left the selection of the next convention city to the executive board.

JUDGE ANNOUNCES SCORES FROM BENCH

Evansville, Ind., Oct. 3.—For the benefit of fans who were compelled to attend court yesterday afternoon, Judge Philip Good, who was presiding at a trial in circuit court here, announced the world series scores from the bench.

ants. The union he said, had never sought the "closed shop" but "union shops."

"When the management signs a contract as to wages and working conditions it is a union shop," he explained.

"The effect is the same as a closed shop, isn't it?" asked Senator Sterling, Republican South Dakota.

"No," said Tighe. "We are not asking for closed shops and never have."

E. Z. Foster, secretary of the general strike committee, whose alleged views as a radical have drawn congressional fire, was present at the hearing today, prepared to testify after Tighe had concluded.

A machine has been invented to wash the outside of railroad cars as they pass through it.

TEXAS BOY GOES TO SCHOOL IN AIRPLANE

Cleveland, Oct. 3.—Seymour Cox, Jr., 11 years old, is making an airplane flight from Houston, Texas, to New York to get an education. With his mother, Mrs. S. E. J. Cox, wife of a Houston oil operator, and pilot Harold Black, Seymour arrived here yesterday. The party left for Buffalo, from where they will fly to New York where the lad will attend school.

CITIES MAKE RAPID GROWTH

Interesting Statistics Concerning Chief Centers of Population in the United States.

The population of New York city on July 1, according to a survey by the newspaper feature bureau, the result of which was made public the other day, says the correspondent of the Pittsburgh Dispatch, was 6,244,616, as compared with 4,766,838 in 1910, an increase of 31 per cent. Of the total 120,138 are listed as negroes. The whites of native parentage are given as 1,206,926; of foreign parentage, 2,384,384, and of foreign birth, 2,525,292.

According to the survey the sexes are almost evenly divided. The number of males is given at 3,121,031, and the females as 3,123,585. The city has 1,878,211 males of voting age and 333,012 illiterates more than ten years old. There are 1,337,283 families.

The twenty largest cities in the country, with New York leading, are given as Chicago, with a population of 3,059,396; Philadelphia, 1,936,260; Cleveland, 936,300; Detroit, 936,300; Boston, 830,625; St. Louis, 824,485; Baltimore, 726,030; Pittsburgh, 667,381; Los Angeles, 574,556; San Francisco, 555,882; Buffalo, 516,332; Milwaukee, 504,707; Cincinnati, 472,668; New Orleans, 440,797; Washington, 430,390; Minneapolis, 421,971; Newark, 416,993; Seattle, 393,323, and Rochester, 349,033.

CONSIDER GIFT HIGH HONOR

Comparatively Few Persons Are Presented With the "Freedom of the City of London."

The freedom of the city of London, with which the prince of Wales was presented recently, is one of the most cherished and ancient of civic privileges. The actual document given to his royal highness is a piece of parchment inscribed with his names and titles and guaranteeing to him and his descendants many privileges to which he would not otherwise be entitled. Thus he will not have to pay a tax on any goods brought within the city gates, nor will he have to render naval or military service. Should he fall on evil times the prince of Wales would be entitled to pecuniary aid. Should he in the course of years pass away, leaving children, the city chamberlain would educate them and administer their property until they arrive at years of maturity. It is usual to include the "freedom" in a gold casket, which costs the city £100 (\$500), but the certificates, in the case of the prince of Wales, will be in a frame and the casket will be represented by silver plate. In the case of General Booth the casket was of simple, sturdy oak.

Thermometer Trade to U. S.

With adequate labor American manufacturers of thermometers, besides being able to supply fully the wants of the domestic trade, are in a position to build up a good export business, but, as is the case in so many industries, they are handicapped at present by the shortage of skilled workers. The making of thermometers is mostly a hand process, with a year's experience or more necessary for the development of a skilled worker.

Starting in the war period, when German goods were shut out of the country, the American thermometer industry has shown marked advancement. Before the war Germany controlled the market here as well as those in other countries, but nearly all of the business formerly held by Germany in South America has been procured by concerns in the United States. It is not believed that Germany will regain her position in the domestic market, and much of the South American business, it is predicted, will be held by the American manufacturers.—New York Tribune.

Fascinating Ukulele.

Many people, even now, may think of the ukulele as a Russian province, or an eastern title, yet it happens to be neither, but a small musical instrument which, according to a writer in the London Daily Chronicle, recently baffled the experience even of the customs man, who refused to recognize it as such and permitted its entry into England free of duty. The little South sea ukulele is not unlike a "fiddle" to you play with your fingers," to the eye of the uninitiated, but all who hear it admit its sweetness and the charm of its plaintive voice. No doubt one of these days England will become aware of the fascination of the ukulele, even as America has already done. The customs man will then exact his legitimate toll, and a strange, wild music will haunt the London streets.

TOO FEW USE THEIR BRAINS

Result Truthfully May Be Said to Be the Greatest Waste in the World.

The recent invention which renders wireless transmission independent of atmospheric conditions and the discovery by which seven messages can be sent simultaneously over a telephone wire are striking instances of latent possibilities long unsuspected. For thousands of years we did not even suspect the existence of electricity, and, being ignorant, derived no advantage from it.

If we had never heard music, we would say it was merely the dream of a simpleton to expect the most beautiful harmony of sounds from a combination of wood, intestines of a dead cat and hairs from the tail of a horse. But the violin, plus the man who knows how, accomplishes the wonderful result.

Active talent is the source of both quantity and quality of production, and that does not lie in capital but in men, and it usually is latent.

Every man has power and courage, but not all of them know it. David had it, and knew it, and licked Goliath.

Foch was not plucked from the "four hundred."

And Lincoln came from a log cabin.

Not only once in a while, but very often, nature takes a particularly "raw" bit of material and shows up what is in it. It is a suggestion for use to do likewise with ourselves.

The greatest waste in the world is the unused brains.

TAKING HIM DOWN A PEG

Visitor's Comment on the Intelligence of His Host Verged on the Caustic.

Two old men, one a bachelor and the other a widower of many years' standing, have lived on small adjoining farms in the southern part of Washington county for many years. Not long ago one of them inherited a small amount of money and he immediately put it to use by building a new shack on his land.

When the house was completed he asked his old friend and neighbor to come over to spend the night. After supper they sat by the fire and smoked and talked, and finally, when conversation began to lag, the visitor turned to his host and said:

"You say this home is all done and paid for?"

"Yes," was the short reply.

"And you planned it all yourself and hired the carpenters and everything?" the guest insisted.

"Why, yes, of course, I did. What's the matter with you?"

"Oh, nuthin' much," yawned the visitor. "Only if I was smart enough to buy a house and build it and then'd ast folks to come to see it, I'll be dum'd if I wouldn't know when it was time to say something about going to bed."—Indianapolis News.

Shark Salad Wins Favor.

Shark meat is delicate in flavor and texture, and sharks are plentiful in certain parts of Florida, but the fishermen do not catch them because they are not salable. The home demonstration agent of Monroe county, Florida, decided last winter on an effort to establish in favor this fish now under the ban. At her request a fisherman caught one, but warned her that no one would eat it. Undismayed, she invited a large company of women to a home economics luncheon at which was served a fish salad. When all had tasted the salad she asked for a vote as to how many liked it and wanted the recipe. Without exception the women voted their hearty approval, and thus proved to themselves that their prejudice was without foundation.

Increasing Use of Castor Beans.

The use of castor beans for making oil increased very rapidly in 1918. Great Britain imported from India from 8,500 to 4,000 tons per month. They were used in making a motor lubricating oil. An effort was made last year to plant large areas of the beans in the southern part of the United States and in the West Indies and Brazil. So far most of the beans have been raised in India from which some 1,728,000 gallons of oil were exported in 1916-17. This bean is a form of our common garden castor bean used as an ornamental.

Recent Spanish Inventions.

Recent inventions reported by Carl Bailey Hurst, American consul general at Barcelona, include a straw compound as a substitute for coal for locomotives and agricultural tractors, as it develops sufficient heat in thirty minutes, and the ashes make an excellent fertilizer. This is invented by Joaquin Estevan, the engineer. Another patent is by Thomas Roca of Las Palmas, on a process for the use of banana fibre for textiles, yarns and cords as a substitute for hemp.

SOCIAL AFFAIRS

Montgomery-Vermilion.
At the home of the officiating minister Rev. Calvin G. Hazlett, 363 Hudson avenue, Thursday afternoon occurred the marriage of Miss Gladys M. Vermilion to Mr. Eugene O'Bannon Montgomery. Mr. Montgomery is a farmer living a few miles east of Newark; the bride formerly lived near Claylick.

Miss Carol Wyeth of North 11th street, entertained ten of her girl friends at a party Thursday evening at which she announced her engagement to Mr. J. H. Duxon of Columbus, formerly of Granville. The young women present were Mildred Rhodes, Louise Africa, Mabel Wells, Jessie Simpson, Dorothy Moran, Gertrude Meredith, Ella Barberick, Frances Powell and Lin Hess. One feature of the refreshments was an individual small cake which when opened revealed a gilded engagement ring in the circle of which were the names of the bride and bridegroom to be. The wedding will take place in November.

On Thursday evening the members of the Seventh Day Adventist congregation gathered at the home of Mrs. M. Hume 259 West Main street for a farewell social for the pastor Rev. H. I. Pettis and family who are leaving to accept a call to New London, Conn. Mr. Pettis has been locally associated with the church during the past year and it is with mutual regret that the association is broken by the call to the Southern New England charge. Light refreshments were served and a very enjoyable time was experienced by all.

The first meeting of the Social Needle Workers was held at the home of S. C. Morrison of Granville street, Thursday afternoon. The afternoon was spent in various needle work and a contest was held in which Mrs. J. E. Conn won the first prize and Mrs. J. H. Lanning the booby prize. Delicious refreshments were served. The next meeting will be held at the home of Mrs. Conlon of North Fourth street.

The King's Herald of the First M. E. church will meet at 2 o'clock Saturday afternoon at the home of William Smith, 158 Hoover street. Don't forget to bring dues.

Miss Beulah Murray was surprised at her home in Hazelwood avenue by the employees of the Boston store in honor of her birthday anniversary. The evening was spent in dancing and other amusements and a three course lunch was served. Miss Murray received many pretty gifts.

KIMONA SUGGESTION FOR AUTUMN BRIDES

With the winter coming on, the October bride will not look at the chiffon and georgette negligees, but she will want something more substantial in the way of a robe. Silk will be the most practical fabric and fashion experts are suggesting silk embroidered Japanese kimonos like this one for the touseaux of the autumn brides. An attractive feature about this robe is its coloring, which shades from pale lavender or heliotrope at the shoulders to royal purple of the deepest hue at the hem.

OBITUARY

Mrs. Manilla Lyons.
Mrs. Manilla Lyons, aged 84 years, died last evening at the City hospital at 8:30 o'clock after a several days' illness. She was born in New Concord, O., her daughter dying a number of years ago. The body will be shipped to Mt. Pleasant, Mich., for interment.
Mrs. Lyons came here with her daughter, Mrs. W. L. Fisk about a year ago from Jackson, Mich. She is also survived by two sons, one a physician at Ann Arbor University, and the other a dentist at Jackson, Mich. Both arrived in the city before their mother passed away.

Story of Familiar Quotation.
Correctly given the quotation is: "When Greeks joined Greeks, then was the tug of war." It is from a tragedy entitled "The Rival Queens; or Alexander the Great" by Nathaniel Lee, a tragic poet who died in 1692. He wrote a number of tragedies in spite of the fact that he had occasional attacks of insanity, a misfortune that seemed to assist rather than retard his bursts of eloquence. Curiously enough, while that one line has lived and has been quoted down through the centuries and quoted by thousands, there is not one person in a hundred who knows who wrote it or anything about its author, even after they have heard his name. Advice to authors, try to utter at least one pungent sentence if you wish your words to be remembered.

PAVING SUIT WILL BE HEARD MONDAY

In the case of Keeley & Son vs. the City of Newark and the Federal Asphalt Paving company, the defendant made application to the court to hear, on Saturday next, the motion to increase the bond, and to dissolve the injunction. The plaintiff opposed the motion and the court set the case down for hearing on next Monday afternoon. The petition asks that the city be restrained from entering into contracts with the Federal company for the improvement of several streets in this city.

Asks Decree Set Aside.
The court was engaged in hearing the evidence in the case of Nellie Anderson vs. Floyd Anderson. Plaintiff asks to set aside a former decree of divorce granted to the defendant. She claims that the decree was obtained by fraud and by misrepresenting the facts; by collusion between the parties, and because the acts alleged in the petition as ground for divorce were condoned before the decree was obtained. Defendant denies the claims of the plaintiff. About 45 witnesses are at the hearing. Otto G. Runnels vs. B. J. Watkins, two cases, leave given to plead in 60 days.

Garments of Distinctive Style and Quality
The Colors, Fabrics & Prices Will Delight Well Dressed Women

DID you ever stop to think how opportunely this early Fall showing is planned? Just at the time of year when summer apparel is decidedly passe, and one's wardrobe has more or less of a "worn" appearance—then comes this Fall display, with its wealth of new fashions, new fabrics and new fancies. Its a positive pleasure just to see these garments, and we feel quite certain that the woman who selects her Fall wardrobe here will be completely and thoroughly satisfied. We have considered every woman, we believe, and have catered to the dictates of every purse and income.

IF ITS A SUIT

YOUR SEARCH ENDS RIGHT HERE.

If you are like most women you have, no doubt, canvassed every store to find a Fall suit that would strike your fancy. Perhaps you have grown weary of the search, so you will, indeed, welcome this display of new models that have just arrived from our New York office.

They represent only the styles that are now being worn on Fifth Avenue and Broadway, including the new short and ripple jackets, developed in Tinseltown, Sueding, Wool Velour, Silverstone, Velour Cheeks, Oxford Suing, Gabardine, Men's Wear Serge and Wool Poplin.

We want you to see these suits and note how different they are from those other stores are showing. The price range, as usual, is moderate.

Success and Failure.

The secret of real success is this: If you have lived such a life that you can say: "I have never done any man an injury." If you can say of your enemies: "I freely forgive them of the injuries they have done me, and pity them for having done so," and if you can rejoice in the fact that you are not like them; if you can sleep all night the sound sleep of a clear conscience, and rejoice in the knowledge that you possess a conscience; if you possess a tender heart that can move you to tears of sympathy for the stricken one and a nature given to lending of a helping hand to such stricken ones; and if, when you come to that time when "The cruel master death seals the eyes and steals his breath," and can calmly face that moment without fear, with a full knowledge of a "well done" at the end, then you are a success, otherwise, no matter what your station in life may be you are a failure.

A Store Is As Good As Its Service

Of what interest are the magnificent cars of a great railroad, unless the train carries you on time and in safety?

Of what interest are the marvelous devices that transmit messages around the world, unless your particular message is delivered properly and promptly and correctly?

Of what interest are our large stocks and low prices unless we can lend the support of service to each undertaking? Sales service, advertising service, proper adjustments—these make a store great in the eyes of the public.

This is a great store because its economies are great—a progressive store because its principles are progressive—a good store because its service is good.

WOMAN DOCTORS.

Women physicians from 30 counties are holding a convention at New York city, at which they are discussing the question of social responsibility for public health. Twenty-five years ago it would hardly have been possible for these women to meet without encountering considerable ridicule and serious disapprobation.

The first women doctors were pioneers in a field where their entrance was resented by many. Some people used to think that women were incapable of receiving any form of the higher education. Others thought it would be improper for women to attend medical lectures and experiments with men. Many obstacles were thrown about their entrance to this form of work.

Experience has shown that a great many women are exceedingly well adapted to success in this profession, and they have become a tremendously useful force.

Women physicians have been particularly helpful in the work they have done for physical development of school children. A very large number of them are serving as medical inspectors in schools usually for little pay. They point out an enormous number of physical defects in children and persuade the parents to have these defects treated and removed. Millions of children have better teeth, better eyes, and better breathing apparatus, than they would have were it not for the activities of women doctors.

Another great service is their constant example and counsel against various unhealthful practices to which women resort for personal adornment. High heels, tight corsets, and other follies, encounter the ridicule and warning of these plain spoken women. Many honor ought to be given these workers who have done so much in the cause of physical betterment and social service.

LONG TELEPHONE TALKS.

The chairman of the Pennsylvania Public Service Commission in a recent case rules that telephone patrons have no right to hold a line for long talks running from 15 minutes to a half hour, and that a subscriber might be cut off for such misuse of his line.

Some residents of Newark will sit down to a telephone for interminably long gossip over the most trifling matters. Meanwhile the line may be needed for conversation of the utmost importance, and work and business may be held up.

Some people seem to think that once they have paid for a telephone, they have the right to use the lines indefinitely. A great many idle persons are pleased if they get a chance to order off some one who needs the line for business. Gossippers should resort to other means of communication.

The Democrats in congress, though a minority, are unanimous for the passage of good bills. The Republican majority is in reality a set of factions which can agree on nothing but the policy of attacking the President.

The senatorial idea of the way to get their ideas on the peace treaty before the public, is to make speeches so long that none of the newspapers will print them.

BILLION OF BUG FOOD.

The man who has to pay a high price for his loaf of bread rarely stops to ask what are the causes that tend to make the food supply scarce. If he would look into the matter he would see that some of these causes are perfectly removable. Perhaps then he would be willing to join in community efforts to overcome them.

Take the matter of the destruction of food staples by insect pests. These losses are estimated to total \$1,000,000,000 or more annually. Not merely do they increase the price of bread, but they reduce the supply of grains available to feed to meat producing animals. The people pay for it every time they buy a loaf of bread, a pound of bacon, or a beef roast.

One insect alone, the Hessian fly, destroyed 60,000,000 bushels of wheat in 1917.

Now what can be done to prevent this enormous loss? First, save the birds. Every man that kills a useful bird or every boy that destroys a bird's egg, is killing a form of life that feeds on the harmful pests.

Second, fight the pests with modern science. Among the successful plans for doing it is the scheme of strips of road oil laid around fields. In one middle western state last summer, 1500 miles of this barrier was laid at a cost of \$50,000 to the owners and \$10,000 to the state. It saved \$1,000,000 worth of corn. Now if preventive measures could be introduced everywhere, food would not cost as high.

The farmer can well afford to spend money liberally to secure the best scientific insect killing work on his products. The consuming public should demand that the agriculture departments of the state and nation have all the money they need to use in insect fighting experiments. Banking interests should do their utmost to finance the farmer who is willing to put in the best equipment for fighting pests.

Responsible leaders in the industrial world, whether they represent capital or labor, must realize the necessity and strive for this success of the conference that President Wilson has called to settle controversies between employers. An opportunity for both sides to talk together in frankness will prove a way for working together in harmony.

After reading all the Republican charges against the war department, it would appear that its greatest offense, in the eyes of the G. O. P., was the winning of the war before a Republican congress came on deck to tell how the victory should be achieved.

Most of the Republican "investigating" committees of the present congress seem to believe they were appointed to furnish campaign documents for their party's next campaign—and, of course, Republican literature for elections doesn't need facts.

Republican opposition to the treaty and impeachment of the motives of all concerned with its negotiation is an incitement to unrest and suspicion at home and abroad. Heavy responsibility goes with this senatorial recalcitrance.

Senator Lodge and his collaborators wrote the majority report against the treaty in the same vein and language in which they would prepare an article for an organ of the Republican party—which was exactly their purpose.

Sarcasm was substituted for facts by the Republican majority of the Senate Foreign Relations Committee in its report on the treaty and the League of Nations. Many a person who has tried to be humorous has succeeded in being merely ridiculous.

BRAND WHITLOCK'S SERVICE.

(Ohio State Journal)

There will be many in Ohio to commend the action of President Wilson in nominating Brand Whitlock to be the ambassador of the United States to Belgium. It is a promotion fairly earned by good service rendered under war conditions. As minister to Belgium when war developed Whitlock chose a course followed by few statesmen. He earned the praise of all nations for the services he was able to render. This government has raised the post in Belgium to the dignity of an ambassadorship and Whitlock, now minister on leave in this country, will return to occupy a place of increased dignity and importance. In days of invasion he stayed at his post. During all the years of war he represented with conspicuous ability the American government. In the days of reconstruction he will occupy a lofty position with larger powers to be employed in protection of all interests. He earned the promotion and is competent to render valuable service.

The Republicans have won the first skirmish in the treaty fight. The Germans won the first skirmishes of the war.—Charleston News and Courier.

LOST IN "NO MAN'S LAND"

LEST WE FORGET.

(Philadelphia Record.)

One year ago, if peace with Germany had been proposed upon the precise terms subsequently agreed upon at Versailles, no man respected in America would have dared to raise his voice against it. The enemies of President Wilson were as numerous and as full of venom then as they are now, but they would have lacked the courage to put forward hair-splitting technicalities and petty jealousies of our allies as sound reasons why the bloodshed and strife should not terminate. The memory of war's horrors quickly fades. One year ago, when two million anxious mothers lived in a hell of daily uncertainty and feared to read the casualty lists in the newspapers, and when three million more were tormented by the ever-present fear that their loved ones would soon be called upon to take their places on the battle-line and make the supreme sacrifice, our pious statesmen would have feared to oppose a peace on the grounds that they now hypocritically present in sounding phrases on the floor of the United States Senate to win applause from the unthinking mobs in the galleries.

One year ago there was in the heart of America a grim determination, first, to bring Germany to her knees, and next to make the indiscriminate slaughter of millions in war forever impossible. The enemies of the President did not then profess to fear that we were associated in the war with a band of thieves and robbers who were going to take an unscrupulous advantage of us at the peace table; they did not then pretend to believe that future wars could be prevented only by our sacrificing our sovereignty and independence to European nations; they affected only to be panic-stricken lest President Wilson should let the brutal Hun escape unscathed. The peace terms deprived them of this weapon of criticism. They stripped Germany of the argument and her power. They imposed upon the enemy penalties, territorial, military, financial and economic, to the limit of her ability to pay. They met the demands of the most flexible program of a hard peace. And they laid the ground, in the League of Nations which all professed to favor with the tragedy and horror of war still vivid in their vision, for an enduring peace among all the nations of the earth.

If this treaty is now challenged by men who hold themselves to be loyal Americans, and if their fine-spun arguments against it, founded on appeals to selfishness and prejudice, find ready listeners, it is because some of us have too soon forgotten. The men who laid down their lives in France believed that they were making the sacrifice for their country not only, but for God and humanity. If they would mingle with the crowds in the Senate gallery, and listen to the specious arguments of narrow-minded false leaders cloaking partisan animosity in the garb of superpatriotism, we feel sure that they would not join in the applause. Rather would their curses rest upon the heads of those who labor to flinch from posterity what they thought they were buying for it with their blood.

No American who learned what war is from personal experience in France can want to participate, or have his sons participate, in another war if it can be avoided. The covenant of the League of Nations is the first concrete proposal for the abolition of war ever put within reach of the world with a prospect of realization. If any of the bugaboos which have been created in an effort to scare the United States out of the League should actually materialize, the way would still be open for us to withdraw from it. Why should any sane man who is not actuated by unworthy motives refuse to give it a trial?

Pointed Observations

The war may be over, but the battle for existence waged by the middle classes bring as many heartaches as war.—Baltimore American.

Yes, there is no doubt but that in their fundamental interests capital and labor are one, with a nation-wide economic battle being waged to find out which one.—Boston Transcript.

Tennis 300 Years Old.

It may be claimed that lawn tennis is at least three centuries old, having been played in 1501 when Queen Elizabeth was entertained at Elvetham, in Hampshire, by the earl of Hertford. Strutt, quoting from Nichol's "Progress of Queen Elizabeth," tells us that "after dinner, about 3 o'clock, ten of his lordship's servants, all Somersetshire men, in a square green court, before her majesty's window, did hang up lines, squaring out the form of a tennis court and making a cross line in the middle. In this square they, being stripped of their doublets, played, five to five, with handball to the great liking of her highness."

Did You Know

That both the titles "Czar" and "Kaiser" probably owe their origin to the Latin "Caesar"? The words are derived from the old Shavonic language and some etymologists identify them with the termination of the names of the old Assyrian kings.

The "Flying Dutchman."

Perhaps the best known of all sea ghosts is the Flying Dutchman. The tradition goes that a Dutch sea captain, Cornelius Vanderdecken, was homeward bound from Batavia. In endeavoring to round the Cape of Good Hope he met with such baffling head winds that after nine long, weary weeks he hardly shifted his position. In a fit of passion, Vanderdecken cursed God, and vowed by heaven and hell that he would round the Cape if it took him till the day of judgment. For his impiety he was doomed to beat to and fro for all time, and the phantom ship has been reported many times, certain misfortune being expected on any vessel who sights her.

AMUSEMENTS

AUDITORIUM.

Conspicuous for her ability as an actress of high attainment, Dorothy Dalton, the popular Thomas H. Ince star in Paramount pictures, ranks among the leading motion picture actresses of the country. Her success in "Tyrant Fear," the latest Ince-Paramount photoplay, in which she appeared as most emphatic and, while the character she portrays in "The Mating of Marcella" is an important one in every way from that of the fear-stricken Canadian girl in "Tyrant Fear," as one can well imagine, her genius has vested with a glamor and distinctiveness which place both on the same plane of artistry and which will be less satisfying to her admirers. Miss Dalton does splendid work in "The Mating of Marcella" and the excellence of her portrayal of the exacting title role will not only serve to increase her popularity, but add materially to her reputation as one of the most charming and talented motion picture stars in the country. It is seen this evening for the last time together with Ivan Martin's live models, who appear in the Third annual style show.

"The Bride Shop." The Auditorium will have as its attraction tomorrow afternoon and evening George Choo's pretentious production of the successful musical comedy offering, "The Bride Shop," the best of which is from the pen of Fred De Grosse, author of "The Purple Road," "The Enchantress," "Flo Flo," and several other big successes with lyrics by Earl MacBoyle and music by Walter L. Rosemont.

"The Bride Shop" is a fashion show set to music; there is a little bit of plot, some actors and actresses who can both read lines well and sing and dance, a lot of picturesque scenery, a score or more of catchy tuneful musical num-

bers and some clothes—in fact—lots and lots of clothes. The kind of clothes that are the envy of all women. Some of them are the clothes that one sees on the street—some at afternoon teas—some in the drawing room and ball room—and some that are only seen in the best shop windows of "mildays" boudoirs all sorts of fine fluffs that a single male at least shouldn't be able to describe, or at least shouldn't be able to. However, they go to make up the necessary apparel of a properly outfitted young woman, and represent an outlay of upward of twenty thousand dollars.

Out of town reports on the entire production give every evidence of the attraction being one of the best that will be seen at the Auditorium. The sale of seats is now on.

Baseball.

A special Western Union wire will be run into the Auditorium theatre on Sunday next and the returns of the World's series baseball game on that day will be announced by H. H. Scott (Scottie) Manager Fenberg, who went to much expense to secure this, but he believes the fans want to hear the results that day and no matter the expense, he gives it to them together with a feature picture program.

"Miss Blue Eyes."

The laughing musical comedy success which plays at the Auditorium theatre next Tuesday offers to the theatre-goers of this city two of the best charms of nature—music and laughter. Music, the gift from heaven, which lifts us from our earthly troubles and transports us to realms of joy, while laughter, the force that attracts the good, dispels all gloom and unites in friendship.

This new and successful musical comedy was written by George V. Hobart, well remembered by his wonderful play of "Experience" and his "Ziegfeld Follies." Silvio Hain, who was responsible for the tuneful melodies in "Flo Flo" has written a score with an unusual number of catchy song hits. During the run of the piece at the 39th street theatre, New York, it was known as the "play with a thousand real laughs."

There is not a dull moment for two hours and a half and the plot tells you of the troubles of two divorce lawyers who carry you in laughter from their New York law offices to the "Honey-suckle Inn" on the Boston Post road and finally ending in the court room of a Western state court. There are musical numbers galore, a bevy of beautiful girls and a superb cast of well-known musical comedy favorites. This is the same company that won instant success in Atlantic City, Trenton, Wilmington and Baltimore.

The engagement will be for one performance only here and patrons are urged to reserve their seats early.

"Scandal."

From the very first performance at the Garrick theatre, Chicago, of Walter Hest's production, "Scandal," Cosmo Hamilton's brilliant and daring comedy, it looks like an immediate and enduring popular favorite, and so it has proven, as there seldom was a vacant seat during its seven months run at the above mentioned playhouse.

"Scandal" is to be the attraction at the Auditorium on next Wednesday evening and the announcement carries with it considerable interest. Audiences seem to become as demonstratively happy over the final ending as they were overjoyed at its nimble frivolity, its bubbling beauty, and the brilliant lines which it abounds. Probably the brilliant and daring comedy, it looks like an immediate and enduring popular favorite, and so it has proven, as there seldom was a vacant seat during its seven months run at the above mentioned playhouse.

is something more than an embrace when he seeks the sympathy and counsel of his screen mother. An intangible difference is noted when he takes her in his arms and tells her not to worry, that whatever problem is troubling her will come out all right in the end. What is this difference and why is it there? Nothing more or less than the fact of the rare sympathy and understanding existing between Tom Moore and his own mother.

She is keeping house for him and his little daughter Alice near the Goldwyn Studios in California and when he bids the two goodbye every morning on the porch of their bungalow home the neighbors enjoy the scene which, as it happens, is duplicated in his new Goldwyn Picture, "One of the Finest," which comes to the Alhambra theatre Friday.

Fate Hamilton, clever Metro star will be the Alhambra feature for Sunday and will be seen in the wonderful photoplay "In His Brother's Place." A comedy and other attractions are promised. Gladys Brockwell in "Broken Commandments," a William Fox feature is to be shown at the Alhambra next week. For Monday at that house Susus Hayakawa, the noted Jap actor will be seen in "The City of Dim Faces." Elsie Ferguson in "The Danger Mark" moves from the Auditorium to the Alhambra for a Tuesday screening.

This talented and popular little lady was warmly greeted yesterday afternoon and evening, by hundreds of her friends, who seldom if ever go to moving pictures, except when Miss Barriscale is on the screen. The story of "Tangled Threads" is her very best picture. Drop around this evening and watch her work, it will serve to rest your mind from the work day cares. Billy Weston is also on the program in his latest comedy picture "Loop the Loop." Billy is a hummer in this picture.

ALBERT OF BELGIUM ONLY REPORTER WHO EVER BECAME A MONARCH

Worked On Newspapers In Northwestern America Several Years Ago—Became King In December, 1909—Is Beloved By Entire Belgian Nation For His Democratic Spirit.

New York, Oct. 3.—Albert I, King of the Belgians, the only newspaper reporter who ever became a monarch, is 44 years old and is one of the most picturesque figures of the Great War. The king took a postgraduate course in "newspaper" training in 1908 when, somewhat like Peter the Great, he visited the shipyards of France, Great Britain, Italy, Germany and Scandinavia, to learn everything possible regarding ocean carriers with the expectation at some future time of putting Belgium high in the rank of maritime powers. Several years previously, it is said, when merely the son of the Count of Flanders, a nephew of King Leopold, he came to the United States and worked as a reporter on one or two newspapers in the Northwest.

Succeeding to the crown on December 23, 1909, Albert I. endeavored himself to the 7,500,000 people of his little kingdom. The abuses of the monarchy had brought upon the head of his aged uncle Leopold the condemnation of the civilized world, were abolished and the king and his beautiful consort faced the prospect of a long and hard life in a country where "tramps, idlers and soup houses are unknown."

Then came the war. The King of the Belgians made his kingdom a battlefield of the world's armies. He was the only monarch who was not a soldier. He was the only monarch who was not a soldier. He was the only monarch who was not a soldier.

During the great conflict King Albert spared himself none of the rigors of the soldier. Often he exposed himself to shell fire and aviators' bombs burst about him. Once a German tore off the wheel of the automobile in which he was riding. At another time a chauffeur who had been promised \$20,000 to deliver the king to Germany was shot dead as he endeavored to drive the royal car into the German lines. Hardly a day passed that he was not in jeopardy of his life and future efforts were made to induce him not to expose himself.

"My skin is of no more value than yours," he told his heartless soldiers on their retreat from Antwerp. "My place is on the front lines." Although his mother was a Hohenzollern princess and his wife a Bavarian princess, and although in his youth he had been educated in Germany, he manifested a strong sense of character that irritated the former emperor of Germany. The latter, among other honors before the war, conferred upon Albert I. the title of honorary colonel of the Middelburg regiment, an act which the Belgian press construed as an effort of the German ruler to gain an influence over the young king.

An indication of Albert's spirit came when Belgium was invaded. In taking command of his troops on August 6, 1914, he said: "A neighbor, haughty in its strength, without the slightest provocation has torn up a treaty bearing its signature and has violated the territory of our fathers because we refused to forfeit our honor. It has attacked us. Seeing its independence threatened, the nation trembled and its children sprang to the frontier, valiant soldiers in a sacred cause. I have confidence in your tenacious courage. I greet you in the name of Belgium, a fellow citizen who is proud of you."

One year after Belgium's heroic resistance to the German flood, the people of Paris, in gratitude and affection for King Albert presented to him a gift sword of the Edouard steel, the design of which was wrought by the sculptor, Fetsu. Upon the blade, ornamented with panoplies of steel upon gold, was a tribute written by Jean Richepin.

"No thoroughfare," is the inscription upon the guard at the foot of the hilt in the form of a statuette, in massive gold, representing a young athlete upon his defensive, brandishing a club. On Friday, November 15, 1918, after years of bitter privations, King Albert returned with his victorious troops to his devastated but beloved capital amid the loud acclaim of the people.

Queen Elizabeth, who was married to King Albert in 1900, as the Duchess Elizabeth of Bavaria, was described at the time as "a strikingly handsome woman." The marriage was quite generally supposed to have been a genuine love match. Three children have been born to them, the heir apparent, Prince Leopold, Duke of Brabant, born November 3, 1901; a second son, Prince Charles Theodore, born in 1904; and a daughter, the Princess Marie Jose, born in 1906.

The queen is highly educated and fond of music, literature and art. Music is said to be a passion with her and she is an accomplished violinist. She also plays the piano and mandolin with much ability. It is said she has a marked preference for the violin. She is a devoted mother and a devoted wife, but confesses to abominating Wagner. Some years ago she developed talent as a dramatist and in 1905 wrote "Tosca," a play which was produced in Brussels in March of the year and caused a decided stir in the Belgian capital. She is also a skilled horsewoman.

During the war the queen nursed many wounded soldiers. A daughter of Duke Charles Theodore of Bavaria, a renowned oculist, she began the study of medicine herself at the age of 16 and took her degree of M. D. at Leipzig just before the war. She is exceedingly fond of horses and dogs, the queen before the war, frequently attended the weekly inspection of the royal stables at Laeken when the hundred or more animals were attended by court veterinarians and often gave the most experienced attendants instructions as to proper treatment. Havana griffons are her favorite dogs and two of them usually stand guard in the royal drawing room.

Queen Elizabeth's charity is said by the Belgians to be literally unbounded. Many a poor, struggling artist at the opera in Brussels is said to have benefited from her generosity without being aware of the fact, for her gifts are usually made anonymously. An instance of the queen's kindness was related by the town clerk of Laeken. One cold, rainy morning before the war, the queen was driving along the Avenue de la Reine, when she saw a poor old woman, seemingly blind, walking along. The queen got out of her car, stepped over to the woman and asked her if she was not cold. Receiving an affirmative reply, Elizabeth

took off her own waterproof and placed it over the old woman's back. Then, taking out her purse she gave her several gold coins, and took her address, so that she might continue her benevolence. Many incidents of this type have long since endeared the queen to the people of Belgium.

Intensely practical, Queen Elizabeth has sought to educate her people in domestic economy and other useful arts. She founded a training school for cooks in Brussels on the lines of a university, with a three years' course and an honor class of freights, two of which included the queen to the students who invented the dishes. The students were from all classes of society, working girls, social butterflies and intellectuals.

The queen is an expert cook herself, and frequently called at the school to advise teachers and watch the progress of the students. Among her numerous charities, not the least is the Albert-Elizabeth Dispensary in Brussels, which the king and queen established and have supported for years.

The king and queen are enthusiastic about aviation and both have taken a number of flights, two of which included trips across the English Channel from Paris to London. On March 13, 1917, Albert made a long reconnaissance in a biplane over the Yser front under a heavy anti-aircraft fire by the Germans. At other times, the king and queen have visited the front under a heavy anti-aircraft fire.

Grateful for the aid which the United States and the Allies bestowed upon Belgium in her hours of trial, the king is said to be partly to express this appreciation on behalf of his country to the American people.

One of the gifts which Albert I. and Elizabeth are bringing to this country is a complete table set of Brussels porcelain for President and Mrs. Wilson whose guests they will be at the White House for a part of their stay. Upon leaving the United States the royal couple are to visit King Alfonso and Queen Victoria of Spain, for both of whom they have a warm attachment.

Minnesota's mines produced more than all the rest of the states put together last year, furnishing more than 60 per cent. of the total production of the United States.

RYE AND VETCH HELP CORN LAND

The sowing of a cover crop of rye and vetch on corn land to be replanted to corn is being done this fall more than ever, particularly in the rolling and hilly sections of Ohio. The seed for this crop may be sown as soon as the corn is cut. A satisfactory mixture consists of five pecks of rye and two pecks of vetch, sown the same as wheat at the rate of six pecks to the acre. While the price of vetch seed is pretty high, enough seed will be produced on a small acreage in one season to enable the farmer to employ this practice on a more extensive scale the following year, with a relatively small outlay. If the crop is allowed to mature, upward of 20 bushels per acre of the mixture can be obtained. The vetch should be inoculated if sown on ground on which it has not been grown before. The cover not only prevents washing, but adds nitrogen and organic matter to the soil and may be pastured in the spring.

PAYS FARMER TO BUTCHER AT HOME

The farmer with one or two steers for sale at \$9 a hundred can well afford to butcher a beef, according to meat specialists at the Ohio State University. With the cheapest cuts of boiling meats, retailing from 15 to 20 cents a pound and the better cuts from 25 to 30 cents, the entire carcass is not likely to cost the farmer over 17 cents a pound, with a dressing percentage of 50 percent. The hide of a steer weighing from 1,100 to 1,200 pounds is worth from \$15 to \$20 and will pay many times for the cost of slaughtering by a butcher. Many farmers find that they can sell their meat or divide with neighbors.

"And the Goose Hangs High."

The most popular explanation of the origin of the expression, "Everything is lovely and the goose hangs high," is this: That it comes from the southern country amusement known as "goose pulling." A goose, its neck carefully plucked and well greased, was hung by its feet to a branch of a tree. The men would ride past at a gallop, trying to catch it by the neck and pull its head off. The better the goose was in dodging the greater the fun. When the goose hung high, so that the competitors had to stand in their stirrups to grasp it, the joy was the greatest. Another suggested origin is that it refers to the fact that wild geese fly in clear weather; this explanation would change "hangs" to "hunks."

Only One Way.

The mild young gentleman, having read that every man ought to have a knowledge of self-defense, betook himself to an instructor of boxing, arranged terms, took off his jacket and vest, put on the gloves and started to learn things. "This," said the professor, "is the way you do it." With that he landed the pupil a sounding thump under the jaw. When the pupil recovered consciousness he said, "May I ask whether it was necessary for you to knock me down like that?" "Not at all," said the professor; "far from it. There were three hundred and forty-six other ways in which I could have knocked you down."

Many Extra Miles

We can show you—and prove to you—that there is a genuine money saving in the use of United States Tires.

The extra miles they give mean just so many extra dollars counted in real money.

And there are further actual economies in the saving of gas, oil, repairs and depreciation.

The reason of all this is in the tires themselves—their liveliness, ruggedness and sturdiness.

There are five United States Tires—a type for every make of car.

United States Tires are Good Tires

Sure Relief

Where She Drew the Line.
Nora hated to have her hair washed, so mother came to this solution: She would tell the child that sometimes hair turned red if washed with tar soap. The plan worked beautifully. There were no more uprisings on hair washing days, for the little one was fond of red hair. But one day when mother began using the same soap for Nora's bath, the child let out a scream and said, "Mama, I like red hair, but oh, I don't want red feet too."

BURY APPLES FOR WINTER USE

The prospect of high prices for apples next winter is causing many people to put their supply in pits, where a suitable cellar is not available. It is suggested that they be placed in barrels sunk in the soil below the frost line in a well-drained location.

Ben Davis apples keep the best through changing temperatures, although the Russet, Gano, Rome Beauty, and York Imperial may be stored in pits. The thin skin of the Grimes Golden, Jonathan, and Delicious does not make it advisable to store them in this way.

Since apples decay almost directly in proportion to the heat with which they come in contact, it is advisable that they be stored as cool as possible. In the fall a light covering of burlap or old carpet may be placed over the barrel. In winter more covering should be applied, and during midwinter the pit should be well-covered with straw.

Waiting for the Hostess.

I was invited out for dinner and it happened that the minister and his wife were also present. We were a friendly group. At dinner time we were seated at the table, all but the hostess, who was attending to some little matter in the kitchen. We were waiting for her to take her place before the minister said grace. The hostess was a wee bit fussed and called out from the kitchen: "Dig right in, folks; don't wait for me!" But she soon got next to herself and took her place.—Exchange.

Lithuanian Courtships.

There are no June brides in Lithuania, for during that month the maid is too busy in her garden and the man in his fields. No time can be spared for courtship or marriage during the spring or summer or autumn. But in the winter, when the harvests are stored away and when the maidens have long evenings in which to sit by the fire and spin and weave their lovely linen and woolen cloths, singing all the while, the young men call their match-making friends and the short courtship takes place.

The Difference.

Vanderbilt, the elder millionaire, used to boast that he only wore a suit of clothes once. Many of us are like that, of course—only it is a much longer time.

AFTER TWO YEARS FRANK METTS IS OF SAME OPINION

Stands by His Original Praise of Nerv-Worth—"Best Tonic Ever Took"

Two years ago this well known Sallineville, O., farmer endorsed Nerv-Worth in writing. He was recently asked if the passage of time had changed his estimate of Nerv-Worth and this is his reply:

Nerv-Worth Co.—Two years ago I was so poorly with my nerves I couldn't sleep nor sit still. I would get light-headed. I was not safe to be out with a horse. A friend of mine told me of Nerv-Worth. Before I took one bottle I could work and sleep. By the time I took three bottles I could go any place with a horse or climb to the top of our wind pump derrick. It is 40 feet high. Our barn has an iron roof on; I can crawl all over it with a small rope fastened to the comb to hold to. I feel better now than I have for ten years. I keep a bottle of Nerv-Worth in the home to take if my stomach feels unsettled. I recommend Nerv-Worth—the best tonic I ever took.

SPRAYING KILLS APPLE BLOTCH

Apple blotch which has been causing an annual loss of thousands of dollars in Ohio and which has been increasing rapidly for several years is being controlled. Demonstrations in Clermont county this year, in cooperation with the farm bureau and the agricultural college extension service, show that spraying with bordeaux mixture has been almost 100 percent effective.

The first application of the mixture is made two weeks after the petal fall and continued for two or three applications at intervals of about two weeks. Since the blotch infects the twigs as well as the apples and the blighted twigs are the source from which the disease recurs each year, it is necessary to keep infection from the twigs as well as the fruit. The cankers probably remain alive for three years so that it is necessary to continue the spray program at least this long, even after the fruit remains unblemished.

Men troubled with blotch in their orchards can well afford to do considerable twig pruning this winter, according to horticulturists, in order that a large number of cankers can be removed.

Cost of Wives.

What is the cost of wives? It is said that among the Ainu the price of one is a deer horn. The Kafir figures variously from four to eight oxen, according to the competition for the particular bride. A "Corg" of carriages buys a wife in Uganda, and the Australian black gives the weight of his better half in butter, while the Tartars in Turkestan get as many wives as they want at the rate of a box of matches each. In Wales wives are given away—they are paid for afterward, mostly in weekly installments.—Cardiff Western Mail.

Waiting Till After the Show.

The bridegroom was a big, bashful looking country boy. Immediately after the ceremony he disappeared from the scene, and after a long search was found, calmly smoking his pipe in the hay loft in the barn, in his shirt sleeves and his collar off. When asked for an explanation he said: "My collar is so darn high I can't wear it. Tell her I'll wait out here till the show is over and I'll take her home."

His Solution.

They were all crying at once, two girls and a boy. Mother was trying to mix her bread. "Eddie," she said to the little boy, "what would you do if you were poor mamma and had three crying babies and your work to do, too?" "Well," he said, judiciously, "if I was you I would frowb the dirls out the window and rock the boy to sleep."

Livingstone Memorial.

One of the most curious memorials of Livingstone is the "Name Tree," near Victoria falls, on the Zambesi. On the trunk Livingstone cut his initials and the date 1855 on the day of his first visit to the falls. In his book, giving an account of this, Livingstone says: "This was the only instance in which I indulged in this piece of vanity."

One's Too Many Sometimes.

"If we had two heads," remarked the man on the car, "we'd have more trouble getting them to track than we have with our feet."—Toledo Blade.

GO BACK TO EPSOM SALTS

Delicious now! Like drinking
glass of lemonade

Instead of asking for the common Epsom Salts, ask for Epsomade Salts hereafter. You will get a big package for only 15 cents. Epsomade Salts looks and acts exactly like Epsom Salts, because it is Epsom Salts combined with fruit derivatives thus making a sparkling, effervescent, lemonade-like drink for the liver and bowels. Take a tablespoonful of this delicious Salts in a glass of cold water when you feel bilious, sick, headachy or constipated and get the quick and splendid action of a dose of Epsom Salts without the horrible taste.

Epsomade Salts will replace the old Epsom Salts, Rochelle Salts, Sodium Phosphate and Cathartic Pills in every home, say local druggists. (Adv.)

"I SUFFERED SEVEN YEARS"

Was Eventually Cured by
Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered for seven years with a lame back, irregularities and pain. I had one physician after another but they did me no good. I read about Lydia E. Pinkham's Vegetable Compound and gave it a trial and in a short time I felt benefited and am now feeling fine, and without weakness or pain. Many of my friends have also taken Lydia E. Pinkham's Vegetable Compound and been helped by it."—Mrs. MARGARET NESS, 1846 E. Hazard St., Philadelphia, Pa.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, sideache, headaches or "the blues" should not rest until they have given this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for special suggestions. The result of its long experience is at your service.

Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

EVADING LAW THIRTEEN YEARS

Noted Indian Outlaw Forced by Affection to Surrender to Police of British Columbia.

Simon Gun-noot, notorious Indian outlaw and "bad man," has experienced a change of heart. He has given himself up after evading the police and the white man's law for 13 years, says a Vancouver (B. C.) dispatch to the Toronto Globe.

Among his tribesmen in northern British Columbia the elusive Gun-noot was regarded as a great hero, not because of his success in evading the law, but because of his great feats of strength, his prowess as a hunter, his mastery with the rifle, and his intense religious fervor. Undoubtedly the affection of his tribesmen assisted greatly in his remaining at large so long. Of the vast resources of northern British Columbia he probably knows more than any white man. This is said to be especially true of mineral wealth.

During the 13 years Simon has been a fugitive from justice he is said to have never been out of British Columbia. The government has spent \$50,000 to get him, without success. His reasons for surrendering, he says, were to obtain civilized comforts for his sick wife and education for his children.

Simon will face trial on a charge of murdering Alex McIntosh and Max Le Clair, two white traders, whose bodies were found on the trail outside Hazelton, B. C. It is alleged that Simon fought with them, claiming that he did so because they gave his young wife liquor.

IS OLDEST LIVING LANGUAGE

Speech of Lithuanian Peasants Recognized as the Most Ancient Still on Human Lips.

"Viri trahite jugum"—"Men, drag the yoke!"—sighed the Roman politician when Nero turned down the request of the Amalgamated Togamakers' union for an eight-hour day and raised taxes to pay for the autumn series of orgies and a new fiddle.

"Vrai, trahite jugum," echoes the Lithuanian of the present day, as he and his fellow refugees shoulder their packs and set out for the return trip to the farms whence they were driven before Lithuania had set up its present republican form of self-government.

This striking similarity between the modern Lithuanian and the ancient Latin language is no mere coincidence applying to those few words only. Lithuanian is the oldest living language in the world today. It resembles most the primitive Sanskrit and is probably older than Greek or Latin, with which philologists find it has much in common. It is entirely different from German and the Slavic tongues.

Prof. A. Millet of the College of France says: "If you wish to hear from the human lips some echo of what the language originally common to the Indo-European may have been, go and listen to Lithuanian peasants talking."

The Gardeners' Company.

The City of London is tremendously jealous of its institutions and traditions. Such an attitude is, indeed, in itself traditional, and so, year by year, from the lord mayor's show to the Spital sermon, each ceremony, small or great, is duly observed. Thus, the other day, "in conformity with ancient usage," the master, the wardens and the clerk of the Gardeners' company duly waited upon my lord mayor at the Mansion house, and presented him with specimens of flowers, vegetables, and herbs in remembrance of the long association of the guild with the City. And my lord mayor was very gracious, as lord mayors, no doubt, have been for the last 300 years and more, and the master and the wardens and the clerk were duly reverent, and duly courteous, too, as on behalf of the guild they presented to "my lord mayor's lady" a bouquet of orchids.

War on Yellow Fever.

The International health board (Rockefeller Foundation) continues to wage relentless war against yellow fever in the parts of the world that are regarded as the seedbeds of this disease. It is hoped that by this radical plan yellow fever may eventually be altogether eliminated from the world. An epidemic was reported in Guatemala in June, 1918. The board dispatched Dr. Joseph H. White to the scene, and an energetic campaign was organized, resulting in freeing Guatemala from the disease in a few months. Late in the year a corps of 125 men was put to work destroying stegomyia mosquitoes in the city of Guayaquil, Ecuador, for the purpose of ridding that city of yellow fever. Since last November the yellow fever work of the International health board has been directed by General Gorgas, late surgeon general of the army.

Soap Clubs in London.

"Soap Clubs Held Here" is the notice in a shop window in Soho. On inquiry I found that the clubs were similar to the hat and feather clubs which abound in Whitechapel and Bethnal Green.

The money is pooled together every week for soap, and there is a draw who shall have it first. You may be lucky and get your soap the first week you join the club, or you may have to wait three months.

But a glance at Soho waiting for soap suggests that it is not such a terrible hardship as it appears at first sight.—London Chronicle.

DANGER IN WILD FLOWERS

Many Are a Prolific Cause of Hay Fever, According to Expert Who Sounds Warning.

Hay fever is relatively common in children, but the reason that this is not more generally known is that these attacks are usually mistaken for "colds," writes Dr. William Scheppegrell of New Orleans, president of the Hay Fever Prevention association, in the Medical Record.

Sometimes a child that seems to have a "cold" is taken into a park or away to the country in the hope that the fresh air will effect a cure, and it is there exposed to further infection from the pollen of the plants that are chiefly responsible.

Besides the ragweds, which are the principal offenders, there are several other wild flowers that, though quite innocent when left alone, are likely to cause hay fever if applied directly to the nostrils of children. Among these Doctor Scheppegrell warns us especially against the daisy fleabane, one of the commonest of weeds. It grows from one to two feet in height, has light green almost toothless leaves, daisy-like flowers about half an inch wide, with a large greenish yellow disk, white rays occasionally filicating, shorter than those of the daisy and sometimes entirely absent.

Other flowers against which Doctor Scheppegrell warns are the dandelion, field daisy, black-eyed Susan, and other of the Compositae family. These are harmless unless one sniffs their blossoms, in which case they are likely to start a hay fever that may persist well into the fall.

MADE RECORD DURING WAR

Soldiers Proud of "Stars and Stripes," Official Organ of American Troops in France.

The most remarkable publication born of the war appears to have been "The Stars and Stripes." As it went out of business with the final scattering of its staff in June its record is now open to the public.

The publication was, as is well known, the official organ of the American expeditionary forces in France, and there is no doubt that it lived up to its dignity in a handsome manner. It started with a circulation of 30,000, and this was increased to 550,000 in less than a year. It maintained a French war orphan fund, to which 450,000 soldiers contributed 2,000,000 francs, and in its 16 months of life the paper cleared 3,500,000 francs.

There are other details of its progress and its work, among which is one to the effect that it printed 500 poems by soldiers and rejected 20,000.

The Editor and Publisher prints an extended review of the accomplishments of the paper, and from it we learn that its staff at one time or another contained something like 250 men. Among them were Sergt. Maj. Philip Von Blon, managing editor, and Sergt. Robert I. Snadig, staff contributor, both Clevelanders.

An American Solomon.

The story is told of a member of the American Red Cross, somewhere on the Syrian side of the African continent, who found himself faced with something of the same problem the solution of which earned for Solomon, in ancient days, the reputation of being the wisest of men. On this occasion the child was that of an Armenian woman, found in the house of a Turk at Aleppo, and who, the mother said, had been taken from her when three years old. The child she claimed as hers was a little girl of seven years and she gave no sign of recognizing her mother. The American was puzzled to know what to do. An idea struck him. He told the mother to sing the lullabies with which she had been used to rock her baby to sleep. The little girl looked astonished and thoughtful; then she smiled. Memory had awakened, and the Armenian woman had recovered her child.

Scientific Management.

"It doesn't do to swallow all the stories you hear about the efficacy of scientific management, but I heard one the other day that I can well believe," Senator Cummins, the speaker, was entertaining a luncheon party at Atlantic City.

"So your wife refused to marry you when you first proposed to her? I said to Brown during a confidential chat one day. 'Did you keep on pursuing her till she consented?'"

"Not much!" Brown replied craftily. "I went out and made a fortune. When I came back it was she who did the pursuing."

Will Film a Big Game Hunt.

Writing of East Africa reminds me of a young man of greater enterprise than financial resources who has fixed up a contract with a motion picture firm to go on a big game hunting expedition in East Africa and take with him operators and camera. His own cheerful view of the undertaking is that he will get his shooting, and the movie firm will get their pictures, and both will reap substantial profits.—Manchester Guardian.

Suspicious.

Patience—What's the matter with you and Fred?

Patience—Well, I had a suspicion he wasn't true to me all the time he was in France with his regiment, and now I'm quite sure of it.

"Last night he began saying sweet things to me in French."—Yonkers Statesman.

The Use of Face Powder.
Few women will deny that face
powder is a necessity to the well
groomed woman, but of course, there
are many badly groomed women who
employ the innocent powder to cover
a multitude of pimples and other facial
blemishes.

The way in which a woman uses
powder differs as much as the women
themselves. I hear one declare that
only a well worn camellia should be
used. Another says this is too drying
and that a soft bit of flannel is better.
The third turns up her nose at the
mention of travel and reaches for
some sort prepared cloth which is on
the market for the purpose.

One uses a dry towel another a
piece of old white silk stocking and still
another thinks a bit of Turkish toweling
is correct. And so the battle of the
powder rag continues to rage.

The secret of using face powder with-
out its defects depends on whether the
face is or is not thoroughly cleaned
before retiring. A good, pure cream
should be applied and wiped off with a
clean, soft towel. This will leave the
pores clean and free for several hours,
and at the same time improve the col-
or and texture of the skin.

The wise woman will choose her
powder wisely and as carefully as she
chooses her physician. She will select
the things best suited to her com-
plexion, apply it carefully, never
neglect to brush it out of her eyebrows
and lashes and she will always look
the better for using it.

Our Boys and Girls

Many mothers imagine they can al-
low anything on the part of their chil-
dren while young, believing that they
will outgrow bad habits. This is sel-
dom the case, however. Habits grow
with age. Children should be started
right at the beginning of their lives.

A child that is so stubborn that he
will not say "Please" and "Thank
you," when told kindly to do so, re-
quires severe measures taken with him
not only for lack of politeness, but also
because of his stubbornness. The only
way is simply not to allow him to have
what he wants until he says please,
and to take it away from him unless
he says thank you. If he cries put
him as himself until he stops.

Never be ashamed to tell a child that
you do not know the answer to any
special question, and above all, never
get impatient of the questioning. That
is nature's way of making instruction
easier for you. Losing your patience
may, after a time, mean losing the
child's confidence and love.

Ports on Chilean Coast Line.

Chile has a long coast line which ex-
tends from about 18 degrees to 56 de-
grees south latitude. The so-called con-
tinental section of Chile extends from
approximately the eighteenth to the
forty-second parallel, while the insular
or archipelago section extends from
the forty-second to the fifty-sixth par-
allel. In this long stretch of coast
there are numerous ports.

Are Steel Strike Leaders Patriots or Bolshevists?

"We are going to socialize the basic industries of the United States. This is the beginning of the fight. We are going to have representatives on the board of directors of the Steel Corporation," declared John Fitzpatrick, Chairman of the Committee of Twenty-four, representing the twenty-four separate American Federation of Labor unions participating in the steel strike. T. J. Vind, general organizer of the American Federation of Labor in the Chicago district made even a more defiant cry when he declared that "The strike won't stop until steel-workers become the lawmakers at Washington."

While many editorial writers outside the labor press take these and other state-
ments of the strike leaders as an indication that they aim at nothing less than industrial
revolution, *The New Majority*, of Chicago, organ of the Labor party, counters with a charge
of "high treason" against Judge Gary, of the United States Steel Corporation, because he
denied the strikers "their constitutional rights of free speech, press, and assemblage,"
and it affirms, "he has set himself and his steel trust up in defiance of the Government
and Constitution of the United States, as superior to them."

Concerning the union demand for increased wages the labor leaders admit,
according to a correspondent of the New York *Tribune*, that the wages to employees
in the steel industry have increased about one hundred per cent in the last four
years, but "even this increase has not sufficed to improve their originally wretched
conditions. They tell of human beings living like cattle in miserable shacks and
hovels. The answer of the employers to this contention is that with the foreigners in
the mills and furnaces the rate of pay has nothing to do with the standard of living, as
the purpose of this class of laborers is not to live well, but to live as poorly as possible
in order to save as much money as possible, usually with the intention of returning to
Europe when a certain size stake has been attained." The employers support their con-
tention by pointing to a scale of wages ranging from \$3.50 to \$6.00 a day for unskilled
help, and from \$7.00 to \$80.00 a day for skilled help.

DIGEST for this week, October 4th. Other striking features in this week's DIGEST are:

FIGHTING FOR FOOD IN FAMINE-STRICKEN RUSSIA

Russians fighting way to fence to receive food from British sailors at Archangel.

This picture tells more graphically than words the food situation in Russia. British sailors are passing out the day's supply of bread to the people of Archangel. Women fight like wildcats to get near enough to the fence to reach through it and grab a chunk of bread.

KIMONA SUGGESTION FOR AUTUMN BRIDES

With the winter coming on, the October bride will not look at the chiffon and georgette negligees, but she will want something more substantial in the way of a robe. Silk will be the most practical fabric and fashion experts are suggesting silk embroidered Japanese kimonos like this one for the trousseaux of the autumn brides. An attractive feature about this robe is its coloring, which shades from pale lavender or heliotrope at the shoulders to royal purple of the deepest hue at the hem.

PAVING SUIT WILL BE HEARD MONDAY

In the case of Keeley & Son vs. the City of Newark and the Federal Asphalt Paving company, the defendant made application to the court to hear, on Saturday next, the motion to increase the bond, and to dissolve the injunction. The plaintiff opposed the motion and the court set the case down for hearing on next Monday afternoon. The petition asks that the city be restrained from entering into contracts with the Federal company for the improvement of several streets in this city.

Asks Decree Set Aside.
The court was engaged in hearing the evidence in the case of Nellie Anderson vs. Floyd Anderson. Plaintiff asks to set aside a former decree of divorce granted to the defendant. She claims that the decree was obtained by fraud and by misrepresenting the facts; by collusion between the parties, and because the acts alleged in the petition as ground for divorce were condoned before the decree was obtained. Defendant denies the claims of the plaintiff. About 45 witnesses are at the hearing. Otto G. Runnels vs. E. J. Watkins, two cases, leave given to plead in 10 days.

PERSONAL

Private Fred Hottinger, who was overseas 14 months with the 1st division arrived in Newark last week.
Mrs. Lizzie Miller of West Main street was taken to the Sanitarium yesterday afternoon in the McGonagle ambulance.

Mr. and Mrs. E. W. Jones entertained with a farewell party in honor of Mr. and Mrs. A. B. McGinnis, who are leaving for their home in Huntington, Tenn.
Those present were: Mr. and Mrs. A. B. McGinnis, Mr. and Mrs. G. H. Brown and daughter, Isabelle, Mr. and Mrs. C. A. Spees and son Charles, Mr. and Mrs. G. W. Jones and daughter Velma, Mr. and Mrs. P. R. McGinnis and daughter Mary Beulah, Mrs. Sarah McGinnis, Misses Anna Jones and Jennie McGinnis, Messrs. L. L. Jones, M. V. McGinnis, I. D. McGinnis, Russell McGinnis, Clarence Staggers, and the host and hostess, Mr. and Mrs. E. W. Jones.
Joseph Hafner, 71 Wilson street, has been in Cincinnati to see the world's series base ball games.
Mr. and Mrs. Wayne Collier, Mr. and Mrs. Chas. A. Smith started today on a cruise trip from Zanesville down the Muskingum, Ohio and Mississippi rivers on their way to Florida.
Mrs. John W. Thompson, who has been living in Melbourne, Fla., for three years, will return to Newark tomorrow.
Miss Florence Gregory left today for Zanesville where she will portray the character of "Mickey" for the picture which is showing in that city for four days. Miss Gregory made up as "Mickey" will do advertising work in different sections of the city.

Laying a Carpet.
In laying a carpet in a room where there is a fireplace, the section covering the fireplace or hearth should be cut down its center by the shears, and then the carpet should be cut toward the sides, so as to form two flaps, which should be turned under.
Several hundred miles of country roads in Missouri are being kept in condition by a drag hauled by a farm tractor.

SOCIAL AFFAIRS

Montgomery-Vermillion.
At the home of the officiating minister Rev. Calvin G. Hazlett, 363 Hudson avenue, Thursday afternoon occurred the marriage of Miss Gladys M. Vermillion to Mr. Eugene O'Bannon Montgomery. Mr. Montgomery is a farmer living a few miles east of Newark; the bride formerly lived near Claylick.

Miss Carol Wyeth of North 11th street, entertained ten of her girl friends at a party Thursday evening at which she announced her engagement to Mr. E. H. Buxton of Columbus, formerly of Granville. The young women present were Mildred Rhoades, Louise Africa, Mabel Wells, Jessie Simpson, Dorothy Moran, Gertrude Meridith, Ella Fairbairn, Frances Powell and Ula Liss. One feature of the refreshments was an individual small cake which when opened revealed a gilded engagement ring in the circle of which were the names of the bride and bridegroom to be. The wedding will take place in November.

On Thursday evening the members of the Seventh Day Adventist congregation gathered at the home of Mrs. M. Hume 259 West Main street for a farewell social for the pastor Rev. H. L. Pettis and family who are leaving to accept a call to New London, Conn. Mr. Pettis has been locally associated with the church during the past year and it is with mutual regret that the association is broken by the call to the Southern New England charge. Light refreshments were served and a very enjoyable time was experienced by all.

The first meeting of the Social Needle Workers was held at the home of S. C. Morrison of Granville street, Thursday afternoon. The afternoon was spent in various needle work and a contest was held in which Mrs. J. E. Conn won the first prize and Mrs. J. H. Leaning the booby prize. Delicious refreshments were served. The next meeting will be held at the home of Mrs. Conlon of North Fourth street.

The King's Harolds of the First M. E. church will meet at 2 o'clock Saturday afternoon at the home of William Smith, 158 Hoover street. Don't forget to bring dues.

Miss Beulah Murray was surprised at her home in Hazelwood avenue by the employees of the Boston store in honor of her birthday anniversary. The evening was spent in dancing and other amusements and a three course luncheon was served. Miss Murray received many pretty gifts.

A Store Is As Good As Its Service

Of what interest are the magnificent cars of a great railroad, unless the train carries you on time, and in safety?

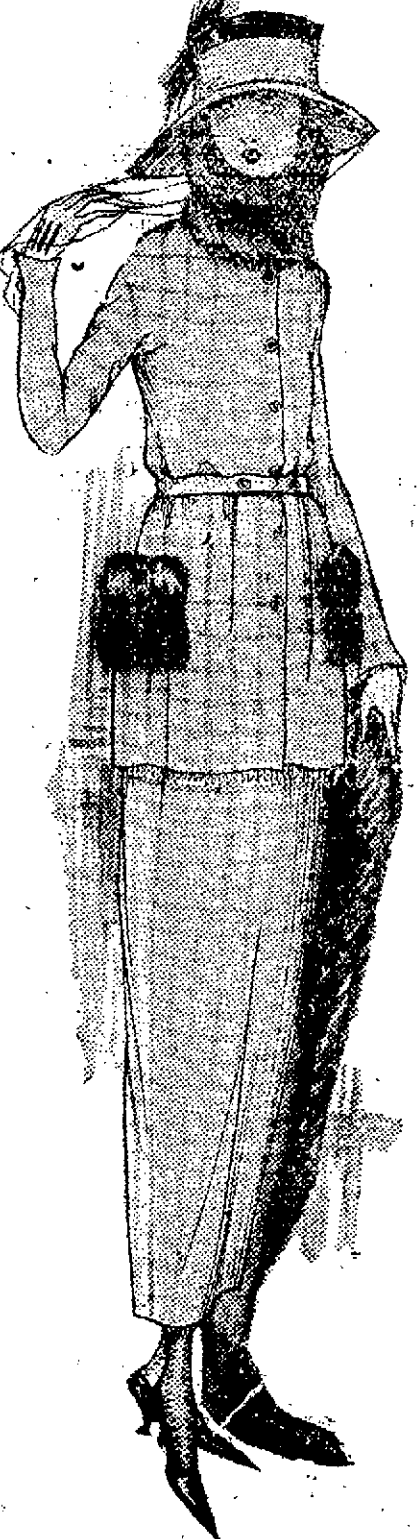

Of what interest are the marvelous devices that transmit messages around the world, unless your particular message is delivered properly and promptly and correctly?

Of what interest are our large stocks and low prices unless we can lend the support of service to each undertaking? Sales service, advertising service, proper adjustments—these make a store great in the eyes of the public.

This is a great store because its economies are great—a progressive store because its principles are progressive—a good store because its service is good.

Garments of Distinctive Style and Quality
The Colors, Fabrics & Prices Will Delight Well Dressed Women

DID you ever stop to think how opportunely this early Fall showing is planned? Just at the time of year when summer apparel is decidedly passe, and one's wardrobe has more or less of a "worn" appearance—then comes this Fall display, with its wealth of new fashions; new fabrics and new fancies. It's a positive pleasure just to see these garments, and we feel quite certain that the woman who selects her Fall wardrobe here will be completely and thoroughly satisfied. We have considered every woman, we believe, and have catered to the dictates of every purse and income.

IF ITS A SUIT

YOUR SEARCH ENDS RIGHT HERE.

If you are like most women you have, no doubt, canvassed every store to find a Fall suit that would strike your fancy. Perhaps you have grown weary of the search, so you will, indeed, welcome this display of new models that have just arrived from our New York office.

They represent only the styles that are now being worn on Fifth Avenue and Broadway, including the new short and ripple jackets, developed in Tinseltown, Sweden. Wool Velour, Silverstone Velour Checks, Oxford Suits, Gabardine, Men's Wear Serge and Wool Poplin.

We want you to see these suits and note how different they are from those other stores are showing. The price range, as usual, is moderate.

Picture In Your Mind A Showing Of 1000 COATS

The best styles from dozens of the leading manufacturers. No matter what kind of a coat you have been thinking of, if it's in good style you'll find it here. Plush Coats, Fur Fabric Coats and Cloth Coats—in short, three-quarter and full length models, with special sizes for small women and misses and women of more ample proportions. The values are truly remarkable.

\$15.95 UP TO \$87.95

You Never Saw A Better Display of PRETTY FROCKS

We anticipated the heavy demand for dresses and are showing every new innovation, fashioned from Serge, Wool Jersey and Tricotine. There are strictly tailored models and those that are charmingly trimmed with braid, embroidery and beads. The color range is complete, including navy, brown, taupe, castor, burgundy and green. The prices will meet with your approval.

A wonderful assortment of children's coats in every new weave and shade, in sizes from 2 to 14 years. No school tomorrow, so bring the children here.

Success and failure.

The secret of real success is this: If you have lived such a life that you can say: "I have never done any man an injury." If you can say of your enemies: "I freely forgive them of the injuries they have done me, and pity them for having done so," and if you can rejoice in the fact that you are not like them; if you can sleep at night the sound sleep of a clear conscience, and rejoice in the knowledge that you possess a conscience; if you possess a tender heart that can move you to tears of sympathy for the stricken one and a nature given to lending of a helping hand to such stricken ones, and if, when you come to that time when "The cruel master death seals the eyes and steals thy breath," and can calmly face that moment without fear, with a full knowledge of a "well done" at the end, then you are a success, otherwise, no matter what your station in life may be you are a failure.

Women bank cashiers are increasing in numbers in London. Doubtless women's alleged inability to keep a secret fits them to be good tellers.—Boston Transcript.

Milady's Boudoir

The Use of Face Powder.

Few women will deny that face
powder is a necessity to the well
groomed woman, but of course, there
are many badly groomed women who
employ the innocent powder to cover
a multitude of pimples and other facial
blemishes.

The way in which a woman uses
powder differs as much as the women
themselves. I hear one declare that
only a well worn champagne should be
used. Another says this is too drying
and that a soft bit of flannel is better.
The third turns up her nose at the
mention of flannel and vouches for
some soft prepared cloth which is on
the market for the purpose.

One uses a dry towel, another a
piece of old white silk stocking and still
another thinks a bit of Turkish towel-
ing is correct. And so the battle of the
powder rag continues to wage.

The secret of using face powder with-
out its defects depends on whether the
face is, or is not, thoroughly cleaned
before retiring. A good, pure cream
should be applied and wiped off with a
clean, soft towel. This will leave the
pores clean and free for several hours,
and at the same time improve the color
and texture of the skin.

The wise woman will choose her
powder wisely and as carefully as she
chooses her physician. She will select
the things best suited to her com-
plexion, apply it carefully, never
neglect to brush it out of her eyebrows
and lashes and she will always look
the better for using it.

Our Boys and Girls

Many mothers imagine they can al-
low anything on the part of their chil-
dren while young, holding that they
will outgrow bad habits. This is sel-
dom the case, however. Habits grow
with age. Children should be started
right at the beginning of their lives.

A child that is so stubborn that he
will not say, "Please," and "Thank
You," when told kindly to do so, re-
quires severe measures taken with him,
not only for lack of politeness, but also
because of his stubbornness. The only
way is simply not to allow him to have
what he wants until he says please,
and to take it away from him unless
he says thank you. If he cries put
him by himself until he stops.

Never be ashamed to tell a child that
you do not know the answer to any
special question, and above all, never
get impatient of the questioning. That
is nature's way of making instruction
easier for you. Losing your patience
may, after a time, mean losing the
child's confidence and love.

Ports on Chilean Coast Line.

Chile has a long coast line which ex-
tends from about 18 degrees to 56 de-
grees south latitude. The so-called con-
tinental section of Chile extends from
approximately the eighteenth to the
forty-second parallel, while the insular
or archipelago section extends from
the forty-second to the fifty-sixth par-
allel. In this long stretch of coast
there are numerous ports.

Are Steel Strike Leaders Patriots or Bolshevists?

"We are going to socialize the basic industries of the United States. This is the beginning of the fight. We are going to have representatives on the board of directors of the Steel Corporation," declared John Fitzpatrick, Chairman of the Committee of Twenty-four, representing the twenty-four separate American Federation of Labor unions participating in the steel strike. T. J. Vind, general organizer of the American Federation of Labor in the Chicago district made even a more defiant cry when he declared that "The strike won't stop until steel-workers become the lawmakers at Washington."

While many editorial writers outside the labor press take these and other state-
ments of the strike leaders as an indication that they aim at nothing less than industrial
revolution, *The New Majority*, of Chicago, organ of the Labor party, counters with a charge
of "high treason" against Judge Gary, of the United States Steel Corporation, because he
denied the strikers "their constitutional rights of free speech, press, and assemblage,"
and it affirms, "he has set himself and his steel trust up in defiance of the Government
and Constitution of the United States, as superior to them."

Concerning the union demand for increased wages the labor leaders admit,
according to a correspondent of the *New York Tribune*, that the wages to employees
in the steel industry have increased about one hundred per cent in the last four
years, but "even this increase has not sufficed to improve their originally wretched
conditions. They tell of human beings living like cattle in miserable shacks and
hovels. The answer of the employers to this contention is that with the foreigners in
the mills and furnaces the rate of pay has nothing to do with the standard of living, as
the purpose of this class of laborers is not to live well, but to live as poorly as possible
in order to save as much money as possible, usually with the intention of returning to
Europe when a certain size stake has been attained." The employers support their con-
tention by pointing to a scale of wages ranging from \$3.50 to \$6.00 a day for unskilled
help, and from \$7.00 to \$80.00 a day for skilled help.

For a comprehensive review of the great steel strike from all angles, read *THE LITERARY
DIGEST* for this week, October 4th. Other striking features in this week's *DIGEST* are:

FIGHTING FOR FOOD IN FAMINE-STRICKEN RUSSIA

Russians fighting way to fence to receive food from British sailors at Archangel.

This picture tells more graphically than words the food situation in Russia. British sailors are passing out the day's supply of bread to the people of Archangel. Women fight like wildcats to get near enough to the fence to reach through it and grab a chunk of bread.

SOCIAL AFFAIRS

Montgomery-Vermillion.
At the home of the officiating minister Rev. Calvin G. Hazlett, 363 Madison avenue, Thursday afternoon occurred the marriage of Miss Gladys M. Vermillion to Mr. Eugene O'Bannon Montgomery. Mr. Montgomery is a farmer living a few miles east of Newark; the bride formerly lived near Claylick.

Miss Carol Wyeth of North 11th street, entertained ten of her girl friends at a party Thursday evening at which she announced her engagement to Mr. E. H. Buxton of Columbus, formerly of Granville. The young women present were Mildred Rhoades, Louise Africa, Mabel Wells, Jessie Simpson, Dorothy Moran, Gertrude Meredith, Ella Barker, Frances Powell and Una Hess. One feature of the refreshments was an individual small cake which when opened revealed a gilded engagement ring in the circle of which were the names of the bride and bridegroom to be. The wedding will take place in November.

On Thursday evening the members of the Seventh Day Adventist congregation gathered at the home of Mrs. M. Hume 259 West Main street for a farewell social for the pastor Rev. H. I. Pettis and family who are leaving to accept a call to New London, Conn. Mr. Pettis has been locally associated with the church during the past year and it is with mutual regret that the association is broken by the call to the Southern New England charge. Light refreshments were served and a very enjoyable time was experienced by all.

The first meeting of the Social Needle Workers was held at the home of S. C. Morrison of Granville street, Thursday afternoon. The afternoon was spent in various needle work and a contest was held in which Mrs. J. E. Conn won the first prize and Mrs. J. H. Lanning the booby prize. Delicious refreshments were served. The next meeting will be held at the home of Mrs. Conlon of North Fourth street.

The King's Herald of the First M. E. church will meet at 2 o'clock Saturday afternoon at the home of William Smith, 158 Hoover street. Don't forget to bring dues.

Miss Beulah Murray was surprised at her home in Hazelwood avenue by the employees of the Boston store in honor of her birthday anniversary. The evening was spent in dancing and other amusements and a three course luncheon was served. Miss Murray received many pretty gifts.

KIMONA SUGGESTION FOR AUTUMN BRIDES

With the winter coming on, the October bride will not look at the chiffon and georgette negligees, but she will want something more substantial in the way of a robe. Silk will be the most practical fabric and fashion experts are suggesting silk embroidered Japanese kimonos like those worn by the trousseaux of the autumn brides. An attractive feature about this robe is its coloring, which shades from pale lavender or heliotrope at the shoulders to royal purple of the deepest hue at the hem.

OBITUARY

Mrs. Manilla Lyons.

Mrs. Manilla Lyons, aged 84 years, died last evening at the City hospital at 8:30 o'clock after a several days' illness. She was born in New Concord, O., her daughter dying a number of years ago. The body will be shipped to Mt. Pleasant, Mich., for interment.

Mrs. Lyons came here with her daughter, Mrs. W. L. Fisk about a year ago from Jackson, Mich. She is also survived by two sons, one a physician at Ann Arbor University, and the other a dentist at Jackson, Mich. Both arrived in the city before their mother passed away.

Card of Thanks.

Mr. and Mrs. C. T. Fields and C. H. Scott wish to sincerely thank their friends, neighbors and White Garnation Review No. 65 and the Royal Neighbors for their kindness and sympathy shown during their recent bereavement.

Story of Familiar Quotation.

Correctly given, the quotation is: "When Greeks joined Greeks, then was the tug of war." It is from a tragedy entitled "The Rival Queens; or Alexander the Great" by Nathaniel Lee, a tragic poet who died in 1602. He wrote a number of tragedies in spite of the fact that he had occasional attacks of insanity, a misfortune that seemed to assist rather than retard his bursts of eloquence. Curiously enough, while that one line has lived and has been quoted down through the centuries and quoted by thousands, there is not one person in a hundred who knows who wrote it, or anything about its author, even after they have heard his name. Advice to authors, try to utter at least one pungent sentence. If you wish your words to be remembered.

PAVING SUIT WILL BE HEARD MONDAY

In the case of Keeley & Son vs. the City of Newark and the Federal Asphalt Paving company, the defendant made application to the court to hear on Saturday next, the motion to increase the bond, and to dissolve the injunction. The plaintiff opposed the motion and the court set the case down for hearing on next Monday afternoon. The petition asks that the city be restrained from entering into contracts with the Federal company for the improvement of several streets in this city.

Asks Decree Set Aside.
The court was engaged in hearing the evidence in the case of Nellie Anderson vs. Floyd Anderson. Plaintiff asks to set aside a former decree of divorce granted to the defendant. She claims that the decree was obtained by fraud and by misrepresentation of the facts; by collusion between the parties, and because the acts alleged in the petition as ground for divorce were condoned before the decree was obtained. Defendant denies the claims of the plaintiff. About 45 witnesses are at the hearing.

Otto C. Runnels vs. E. J. Watkins, two cases, leave given to plead in 60 days.

Garments of Distinctive Style and Quality
The Colors, Fabrics & Prices Will Delight Well Dressed Women

DID you ever stop to think how opportunely this early Fall showing is planned? Just at the time of year when summer apparel is decidedly passe, and one's wardrobe has more or less of a "worn" appearance—then comes this Fall display, with its wealth of new fashions; new fabrics and new fancies. Its a positive pleasure just to see these garments, and we feel quite certain that the woman who selects her Fall wardrobe here will be completely and thoroughly satisfied. We have considered every woman, we believe, and have catered to the dictates of every purse and income.

IF ITS A SUIT

YOUR SEARCH ENDS RIGHT HERE.

If you are like most women you have, no doubt, canvassed every store to find a fall suit that would just strike your fancy. Perhaps you have grown weary of the search, so you will, indeed, welcome this display of new models that have just arrived from our New York office.

They represent only the styles that are now being worn on Fifth Avenue and Broadway, including the new short and ripple jackets, developed in Tinseltown, Suedine, Wool Velour, Silverstone, Colour Checks, Oxford Suiting, Gabardine, Men's Wear Serge and Wool Poplin.

We want you to see these suits and note how different they are from those other stores are showing. The price range, as usual, is moderate.

Success and failure.
The secret of real success is this: If you have lived such a life that you can say: "I have never done any man an injury." If you can say of your enemies: "I freely forgive them and pity injuries they have done me, and you them for having done so," and if you can rejoice in the fact that you are all not like them; if you can sleep tonight the sound sleep of a clear conscience, and rejoice in the knowledge that you possess a conscience; if you possess a tender heart that can move you to tears of sympathy for the stricken one and a nature given to lending of a helping hand to such stricken ones, and if, when you come to that time when "The cruel master death seals the eyes and steals thy breath," and can calmly face that moment without fear, with a full knowledge of a "well done" at the end, then you are a success, otherwise, no matter what your station in life may be you are a failure.

NEW PRESBYTERIAN PASTORS RECEIVED

The Zanesville Presbyterian met in adjourned session in the First Presbyterian church Thursday afternoon at 1 o'clock. The attendance was unusual for an adjourned meeting. The church at Fredericktown presented a call for the services of the Rev. Fred L. Harper of Maroa, Ill. The Johnstown church had a call for the Rev. Thomas Wilkinson of Louisville, Ky. The Utica church extended a call to the Rev. Lyle E. Carter of Gettysburg, O., and the churches of Frazzessburg and Roseville issued calls for the Rev. Messrs. McCracken and Foster respectively. These ministers were all received into the Presbytery, and their installations as pastors of these various churches will take place soon. After transacting routine business the Presbytery adjourned to meet in the Hanover church the first Monday in December.

Poultry alive, lower; springs 25¢ to 1 1/2; fowls 19¢ to 20¢.

Chicago Grain Review.
Chicago, Oct. 3.—Reports of a big break in Argentine corn prices tended today to weaken the corn market here. Opening prices, which ranged from 4 1/2 to 4 3/4 cents lower, with December 1.26 1/2 to 1.27 1/2 and May 1.24 1/2 to 1.25 1/2, were followed by moderate additional declines.
Oats sympathized with the weakness of corn notwithstanding brisk demand from the seaboard. After opening unchanged to a half lower, with December unchanged to a half lower, the market continued to sag.
Higher quotation on hogs made provisions firm. Business however, lacked volume.

Wall Street.
New York, Oct. 3.—Shares of the more popular issues were freely offered at the opening of today's stock market, the selling being attributed to the same factors which brought about yesterday's irregular movement. Crucible steel was again the weak feature losing 6 points. Declines in allied industries extended from 2 to 5 points, oils, motors, tobaccos and chemicals yielding as much. The few transactions in rails were at moderate reactions. Recoveries in such leaders as United States Steel, equipments and Mexican Petroleum resulted in a general rally before the end of the first half hour.
The rebound carried a number of leaders up 1 to 3 points over yesterday's fine quotations but this seemed to serve as a foundation for fresh selling, all gains soon being cancelled. Professional pressure was most marked in speculative shares, such as oils, motors, rubbers and tobaccos where reactions extended from 2 to 7 points. Excepting Crucible, steels and equipments offered better resistance to the liquidating movement which became more general in the second hour. The more responsive issues showing little support. A few substantial rallies followed the opening rate of 7 percent for call loans.

Toledo Grain Closing.
Toledo, Oct. 3.—Corn cash 1.50. Oats cash 1.05; cash new 73¢ to 1.2. St. Botolph's Town.
Boston or St. Botolph's Town is a seaport in Lincolnshire, England, on the River Witham, and four miles from its mouth, with a wharfage of 2,330 feet. In the days of the Plantagenets it was one of the chief British seaports, but the silting in of the river has been an obstacle to its growth of late years, almost continual dredging being necessary to keep a passage to the sea, even for small vessels. Its church tower, St. Botolph's, is a well-known conspicuous landmark, depended upon also by mariners at sea.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!—Adv.

CATARHIAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parment (double strength), and add to it 1 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Closed nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial. T. J. Evans (Adv.)

Old English Institution.

A venerable institution of London's legal quarter—the Moot—has been reinstated at the Inns of Court. The Moot belongs to quite another age, but it is still useful as providing a means of testing the abilities of candidates to the bar. Even should it have been suffered to disappear definitely from the Inns of Court institutions the Moot would have left a reminder in the language of its former presence, says the Christian Science Monitor. The expression "a moot point" springs from the practice of holding discussions for the solution of points which no amount of discussion can settle; the very raison d'être of the Moot.

Of Course She Knew.

Ruth and her papa were sitting on the back porch watching the birds, when a woodpecker flew to a nearby tree. "Do you know what kind of a bird that is?" her papa asked, and, with an air of importance, Ruth quickly responded: "Why, sure I do; it's a Red Cross bird."

New Cases of Influenza Reported

Authorities Fear Return of Dread Disease

From various points in the country come reports of new cases of influenza, which led such authorities as U. S. Surgeon General Blue and Dr. Copeland, head of the New York City Board of Health, to warn the public everywhere to be on guard against this deadly disease.

It is said that the "flu" germ has never been isolated, and that therefore no absolute cure has ever been discovered for influenza. But every doctor knows that the colon, or intestinal tract, is the danger spot of the body and in fact a menace to active life unless it is kept clean, free and active. The intestines are possibly the breeding ground for influenza germs.

Keep the intestines clean, every day, with Paritol Tablets. These tablets taste like candy and are as pleasant as candy. And they are recognized as a most effective antiseptic laxative.

Paritol Tablets are, of course, absolutely harmless, and in addition, they are as delicious to eat as bonbons. They keep the bowels clean and open, invigorate the liver and thus help to purify the blood and tone up the whole system. Be on the safe side and take Paritol Tablets regularly—the Antiseptic Laxative—(FODS). At all druggists. 25c, 50c, and \$1.00 packages.

The Warning—Danger Ahead

DON'T let your kidneys be slackers. They are the organs that purify the blood—keep the intestines clean. On them depend the proper functioning of the bladder and stomach.

DON'T fail to heed the danger signal of backache, headache, dizzy spells, swollen joints, throbbing loins or sharp jabs of rheumatic pain.

DON'T resign yourself to a life of misery. People sick and complaining aren't natural. They are, and they are the biggest nuisance alive. Folks will shun you if you are always ailing.

DON'T grab at the first "cure" that comes along. Be careful. Take a tried and tested remedy that has been helping thousands for more than forty years.

DON'T accept substitutes—go to another druggist. Make sure you get the flat, round box with DODD'S name in the top. Remember—three D's.

Your druggist has Dodd's Kidney Pills. They have been a standard remedy for two generations. It is the best of its supply, send us 60c, in stamps, mentioning the druggist's name, and you'll get the genuine pills from the Dodd Medicine Co., Buffalo, N. Y.

Diamond Dinner Pills are the best mild cathartic, because they do not force—only a gentle aid.

AMBITION PILLS FOR NERVOUS PEOPLE

The great nerve tonic—the famous Wendell's Ambition Pills—that will put vigor, vim and vitality into nervous tired out, all in, despondent people in a few days in many instances.

Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to refund the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and unstrung nerves caused by over-indulgence in alcohol, tobacco or overwork of any kind.

For any affliction of the nervous system Wendell's Ambition Pills are unsurpassed, while for hysteria, trembling and neuritis they are simply splendid. Fifty cents at T. J. Evans' and dealers everywhere.—Adv.

WOMAN LANDS HUGE MARLIN SWORDFISH AFTER FIGHT LASTING OVER TWO HOURS.

Mrs. Marshall Field of Chicago, unaided recently caught a 225-pound marlin swordfish after two hours and twenty-five minutes of work, during which she was towed from Seal rocks into Avalon bay, Catalina island. She says of her feat:

"The really thrilling part of the experience was the magnificent fight the big fish made. He made fifteen distinct runs, each time taking all the line. The last time it seemed as if he were making a straight dash for home, towing us nearly all the way into Avalon bay. That was a unique ride."

Mr. Field and Capt. Barney Halstead were with Mrs. Field at the time.

Curious Cities in the World.

Some curious cities of the world are told about in Leslie's. Among them is the remarkable town of Curva, Bolivia, built entirely on a curved mountain top. One of the most peculiarly located towns in the world is this one, most aptly named Curva. It is situated high up the Bolivian Andes and is entirely confined to the top of a hill. In Patagonia, at the southern extremity of South America, lumber of any kind is extremely scarce, says Detroit News. So the town of Puerto Madryn, 438 miles from Buenos Aires, is constructed entirely of tin and zinc. These are brought down from the capital and are much cheaper building materials than lumber. The houses, roofs and walls are built of metal; the fences also are constructed of it, with a wooden frame. The curious town of Newcastle, Jamaica, is located on the side of a hill in such a way that none of the houses are on the same level. Even in the graveyard, every tombstone is higher or lower than its neighbors.

Let Monkey Do the Work.

Garner, the naturalist, who has spent many years learning the monkey language, believes they could be developed into a race of workers useful on the farm and in the mill. "Sam, a boy ape, that shared my home in Africa," he said, "learned to fetch things I called for. If a man can train a dog to herd sheep, why couldn't he train an ape to help with farm and mill work?" Maybe he could, but if the ape had to be fed on fresh coconuts and had an attack of pneumonia with every rainstorm his keep might cost more than his worth.

Almost an Unknown Race.

In the extreme north of the Russian province of Archangel dwells one of the queerest and least known races of mankind. These are the Samoyeds, the wandering tribes of the vast frozen marshes which extend in these regions from the forest belt to the shores of the Arctic ocean, an exchange says. They worship idols and their sole wealth consists in reindeer. Living, the reindeer draws the sledges, which transports the Samoyede and his belongings from spot to spot in search of the game fish which constitute his principal sustenance. Dead, it provides him with meat in times of scarcity, and with skin for his family tent. With its sharpened bones he tips his wooden fishing harpoons and hunting spears. Its sinews he uses to sew together the shirt, breeches, and boots of sealskin, which are the attire alike of the Samoyede men, women and children.

Plants Have Eyes.

Most people are aware that potatoes have eyes, but how many know that certain common garden and wild flowers are similarly equipped? The nasturtium, begonia, clover, wood sorrel and bluebell, among others, have eyes placed on their leaves, says London Tit-Bits. They are tiny protuberances, filled with a transparent, gummy mixture, which focuses the rays of light upon a sensitive patch of tissue behind them. A nasturtium plant has thousands of such "eyes" on its leaves, but it is not yet known if the plant can actually see. Are the sense impressions telegraphed to some central nerve corresponding with the brain of the animal kingdom? In addition to this visual organ many plants show a sensitiveness to touch that points to further resemblance to animals; while certain seaweeds and mosses in an early stage of their existence are able actually to swim through the water.

No Room for Idlers.

The idler is to society what the drone is to the hive. Civilization hinders men from giving them the treatment accorded to drones, but I'm not sure that future peoples will deal so leniently with clogs to progress. The systematic loafer deteriorates and degenerates. The coddling system robs man of vision, industry and life's wholesome rewards. Life purposes can't grow without incentives. These are associated with life and its needs. They challenge and draw forth the best that is in you. Other motives are insignificant in comparison. The drone on the other hand does nothing that is constructive. He saps the honey but adds nothing to the welfare of the hive.—Pennsylvania Grit.

Learning What to Kill.

Did you ever stop to think when you put your foot down to crush a little insect that you might be taking the life of something very valuable? Even the little beetles and roaches and snakes, which I know you don't like, according to our naturalists are doing a good work, destroying insects that are hurtful to our crops, our vegetables and even our pretty flowers. The snake really eats so many poisonous insects that he is like nature's policeman sure enough. Some one has suggested that each boy and girl call themselves members of a protective association, and see how many little harmless lives they can protect everyday. Always be sure before you kill anything is the best plan.—Kansas City Star.

Got it Printed.

"So, you got your poem printed?" "Yes," replied the author. "I sent the first stanza to the editor of the Correspondence Column with the inquiry, 'Can any one give me the rest of this poem?' Then I sent in the complete poem over another name!"

"BAYER CROSS" ON GENUINE ASPIRIN

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Rheumatism, Neuralgia, Colds and pain. Handy tin boxes of 13 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

Variable Climate Best.

A variable climate has a stimulating effect upon health and is, in general, much more healthful than a uniform climate, even though the uniform climate has an ideal temperature. A rise in temperature may occur without a proportionate rise in the relative humidity, and in either case is said to have a harmful effect on health. The climatic groups showing the lowest death rates are those where the temperature averages about 64 degrees Fahrenheit, and the thermometer falls to about 55 degrees or 60 degrees at night and rises not much above 70 degrees at noon. Accompanying this ideal of temperature there should be a humidity that will average about 80 per cent for day and night together, falling or rising with the temperature.

Calamity on the Farm.

Harold was better acquainted with automobiles than with horses, his knowledge of the latter being chiefly confined to the delivery wagon and truck horses that he saw pass through the alley behind his apartment house home. Therefore the horses at his grandfather's farm were a source of great interest to him and he was with John, the hired man, as much as possible during the two weeks of his visit to the country. When one morning John turned the horses out into the lot and one of the animals laid down and rolled over, Harold rushed to the house in great excitement. "Oh, grandpa, old Bob's turned turtle! Old Bob's turned turtle!"

Fatigue Cause of Accidents.

A man who makes too many motions in performing his work, or who takes extra steps which might be eliminated from his task, who moves more weight than is really necessary in handling materials, or otherwise does extra labor that tires him, may be creating in himself a physical or nervous tension and strain which some day will precipitate an accident. Perhaps it will be the loss of a finger, loss of a limb, or a loss of eyesight. It may be a trivial hurt, or it may be a fatal accident. The circumstances of the moment that cause the accident would not occur, except for the fatigue induced by unnecessary movements in performing work.—Exchange.

Battles on Sundays.

The date of the battle of Salamanca was Sunday, July 2, 1812; Vimiero, Fuentes d'Onor, Orthez, Toulouse and Vittoria were also contested on what were known as "Wellington's Red Sundays." Waterloo was won on a Sunday and the greatest attack on Cronje's trenches at Paardeberg was made on a Sunday—Feb. 18, 1900.

Get relief without fear as
told in "Bayer package"

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the true, world-famous Aspirin, prescribed by physicians for over 18 years. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions to safely relieve Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pains generally. Handy in the boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monacacetiloldest of Salicylic acid.—Adv.

A TON OF BRICK ON MAN'S BACK

Dayton citizen could get no relief till
he found the new root and herb
medicine, Dreco.

"I had such awful pains in my back that sometimes it felt like a ton of brick was bearing down on me, and I could find nothing that gave me relief. That is how Mr. James Rice, the well known man at the National Soldier's Home, Dayton, O., described his suffering. 'But the new medicine, Dreco, has made a new man of me.'"

"In addition to my kidney pains, I also had constipation and headaches; pains in my limbs. I was so nervous that I never got a night's sleep, and my appetite fell to almost nothing. My work is pretty hard, and I knew a man in my condition was liable to have a breakdown. I had bought several kinds of medicine which I had seen advertised in the papers, but none hit my case. I have always had faith in the old time root and herb medicines though, so when I read about Dreco, I got a bottle, and my improvement began almost with the first dose. It relieved the constipation almost immediately, stopped the headaches, my nerves became quiet, and I began to sleep the whole night through and wake up refreshed. The pains in my back grew less day by day and now I have no pains at all. Any medicine that will do that kind of work should be sold about to every one, and that is why I am willing to have you publish my case."

Dreco acts on the bowels and relieves constipation, thereby removing the cause of many troubles. It will be noticed after taking Dreco, the headaches fail to appear; the nerves are soothed, sound sleep induced; the appetite increases; no more dizzy spells; the stomach digests the food without having gas to follow, and the kidneys perform their duty of straining impurities from the blood, thereby putting a stop to rheumatism and other disorders.

All good druggists now sell Dreco, and it is highly recommended in Newark by Evans' Cut Rate Drug Store.—Adv.

ASSERTS FAITH WAS WEAKENING; DIFFERENT NOW

Mrs. Martin Believes In Mer-
its of One Medicine,
Since Taking Trutona

Ironton, Ohio, Oct. 2.—"I had taken so many medicines without getting relief I had become disgusted, but I think I have found in Trutona a preparation that is going to restore my health."

Mrs. M. L. Martin, a well known Ironton woman of 314 Railroad Avenue, said recently:

"Stomach disorder was my main trouble. My appetite was poor and I was usually constipated. I was often bothered with headaches, too. I had become weak and so nervous I couldn't sleep at night. Always after meals, I'd feel so bloated I didn't know whether I could stand it."

"But I feel better all over, since taking Trutona. My appetite is so much better and my food seems to taste better than it has for some time. I sleep better at night now than I have for a long time. I've gotten a great deal of relief from the constipation, too and the former headaches have not bothered me for some time now. I can recommend Trutona to any of my friends and I feel sure it will help anyone who is suffering as I was."

Trutona is now being introduced and explained in Newark at W. A. Erman's Arcade Drug Store.—Adv.

JUST SEE HOW POSAM HELPS SKIN OVERNIGHT

Poslam soothes, refreshes and heals suffering skin, with never a possibility of harm. A brief experience with Poslam will prove its value. For instance, apply a little on some affected part at night. In the morning, your own eyes find evidence of its healing work. If the trouble was slight—a pimple or inflamed spot—the chances are that it has disappeared. If a virulent eruption, it should be subdued, so much so that you will want Poslam to keep right on.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City. Poslam Soap is a daily treat to tender skin. Contains Poslam.—Adv.

C. OF C. MANAGER IS EX-LAWYER

E. D. Leach Gave Up Prac-
tice to Give Attention to
Development of Eastern
Ohio Coal Lands.

"The Chamber of Commerce should be the big stream into which all the contributaries that go to make up the individual, the civil and business life of a community, should unite for the general welfare of that community," said E. D. Leach, new manager of the Chamber of Commerce. Mr. Leach has assumed his duties.

While not an out and out experienced Chamber of Commerce secretary Mr.

E. D. LEACH.

Leach has been connected with many big constructive exploits, being assistant fuel administrator for over a year. Mr. Leach practiced law in Moundsville, W. Va., for 10 years, during that time holding the office of prosecuting attorney. He was a delegate to the National congress on uniform divorce laws. Also commissioner on uniform state laws. Both positions were appointments by the governor. He was a candidate for circuit judge at one time.

Later becoming interested in the development of coal property in West Virginia and eastern Ohio, he gave up law seven years ago and moved to Cleveland. In 1917 he was appointed assistant fuel administrator under Homer H. Johnson. In that capacity he built up the fuel administration organization in the state, maintaining the organization until after April 1, 1918 when he resigned taking a position in the ordinance department at Washington. Later he was commissioned captain. He was discharged in June of this year.

Mr. Leach has made an extensive study of social problems writing extensively for many magazines on the subjects and he has lectured both in this country and abroad. He spent some time in England at the request of a special commission to lecture on these subjects.

Manager Leach has made no announcements as to his plan for conducting the work, spending the first few days familiarizing himself with the local problems.

EDDIE COLLINS IS READY FOR SIXTH BIG SERIES DIVVY

Eddie Collins.

Eddie Collins has been called the greatest money player in baseball because of his constant play, his coolness under stress and his brains. He might also be called the greatest money player in the sport because of his ability to grab off portions of the world series dough. The coming clash will be Collins' sixth world series. Jack Barry is the only other player who has broken into half a dozen classics.

A Real Remedy.
A soldier went to a "quack" doctor
and complained of a sharp pain after
sitting on damp grass for some hours,
during which he had frequently sucked
the point of a lead pencil. The "quack"
told him that he was suffering from
"plumbism" and gave him some pills.
The next day he returned to the
"quack" and said, "You told me I had
"plumbism," which is lead poisoning,
and I now find there is no lead in lead
pencils, only graphite or plumbago."
"Oh," replied the "quack" airily, "did I
say plumbism is the cause of your
plumbism? I meant to have said plumb-
bago is the cause of your lumbago."
"Oh," said the man. "But, anyhow,
your pills are only bread." "Of course,"
replied the "quack." "Don't you know
that bread is the finest thing to remove
pencil marks with? You didn't want
me to give you India-rubber pills, did
you?"

Collective Bargaining.
"Collective bargaining" is a term
used to describe the meeting of em-
ployers or their representatives for the
purpose of reaching an agreement as to
wages and working conditions in an
industry, as opposed to a condition
where single workers act alone and
take or refuse terms offered by an em-
ployer which the worker has no part in
making and which he may regard as
very unfair.

STRIKE DEADLOCK
(Continued From Page 1)

ployes made their usual conflicting
statements.

**SAY 1500 DESERT RANKS
OF STRIKERS AT GARY**
Gary, Ind., Oct. 3.—Alarmed at the
defection of 1500 men from their ranks,
yesterday strike leaders today exerted
every influence at their command to
keep their line intact. A series of meet-
ings were held at which addresses were
delivered by labor leaders and the pic-
et lines were strengthened. The result
of this activity apparently not more
than 200 strikers returned to work to-
day at the Indiana Steel company plant
where units in nearly every department
were in operation. Officials of the com-
pany stated that they now have a force
of about 6,000 employed. The plant is
said to be operating at about 50 per
cent of its capacity.

**STATEMENTS CONFLICT
AT BETHLEHEM MILL**
Bethlehem, Oct. 3.—Little change
was noticeable in the strike today
at the Bethlehem Steel company's
plants today. Both sides again issued
conflicting statements, the company
declaring the strike virtually over,
while union leaders claimed at least
\$5 per cent of the men are out and
that the strike is not over. The com-
pany's statement was that the plant
was running units in nearly
every department on a basis of about
75 per cent capacity.

**INCREASING NUMBER
RETURN TO PLANTS**
Youngstown, Oct. 3.—Attention in the
Youngstown steel district today turned
again to the Ohio works of the Car-
negie steel company to watch resump-
tion of the daily test as to whether en-
ough men can be secured for an attempt
at production, which would be
made since all plants were closed on
September 23. Observers have reported
constantly increasing number of men
entering the plant each morning since
the company adopted the policy of giv-
ing unimportant work to all who re-
turned, and announcements by mill offi-
cials indicate that an attempt to re-
sume manufacture is likely at any time.
Observers reported that the number
of men entering the plant this morning
was about the same as yesterday. Mill
officials asserted this showed a gain
for them, saying that many of those
who went to work yesterday remained
in the plant. Very few pickets appear-
ed today and by 7:30 most of these had
disappeared. Officials would make no
statement as to when production would
be attempted.

**PRODUCTION INCREASES
MILL MEN ASSERT**
Chicago, Oct. 3.—Officials of steel
mills in the Chicago district pointed to
reports of increasing numbers of men
returning to work, during the
past few days and indications by many
other workers of their intention to re-
turn to work as upholding their pre-
diction that production today would
mount close to a normal level.
Labor leaders maintained their state-
ments, however, that appreciable in-
roads into the ranks of the strikers
were not being made.

When Tobacco Was Currency.
For many years tobacco was cur-
rency in the colony, and with the Vir-
ginians of the day the "tobacco note"
served the purpose which the gold or
silver certificate serves with us, and
was honored in all the local shops.
Taxes and parish levies, fines, and
gambling debts, wedding fees, and
funeral expenses were paid in tobacco.
Salaries of ministers of the Estab-
lished Church were paid regularly with
the weed, and parishes were rated and
known according to the quality of to-
bacco produced in them—an "Orin-
oko" parish being considered less de-
sirable than a "Sweet scented."

Consumption of tobacco in Japan
has been increasing greatly for several
years.

NO IMPROVEMENT

uties and this news apparently cheered
him considerably, Mr. Tumulty said.
It was announced officially that the
turn in the president's condition would
not interfere with the industrial con-
ference next week. In the event the
president is not able on Monday to ad-
dress a communication to the confer-
ence, the method of Tumulty will outline
them of the president's desires regard-
ing the selection of a permanent pre-
siding officer.

WAR HERO WILL SPEAK FOR DRYS

Commander of Regiment which Suffered Heavily in St. Mihiel Drive Appears Sunday at High School.

Colonel Dan Morgan Smith, Chicago attorney and war hero, will make two addresses in Licking county, Sunday, October 12. The first will be at 2:30 in the afternoon in the Newark high school auditorium. The second will be at 8 in the evening in the Baptist church at Granville. It is announced that both addresses will be free and that women as well as men are invited. The addresses will be made under the direction of the Anti-Saloon League and will be part of a schedule covering a month, with dates in all parts of Ohio, and concluding on the eve of election. Colonel Smith was commander of the 35th infantry, which, because of the slaughter which it wrought on the enemy, was named the "Battalion of Death." While it was administering punishment it did not escape receiving injury, for whereas it went into the St. Mihiel drive with 1120 men it emerged from that engagement with only 327 men.

Colonel Smith, it is announced, has been on the platform for many years. He is a military man, and long before the war was attached to the staff of the governor of Illinois.

From Granville he will go to Coshocton for a meeting Monday evening.

X-Raying Diamond Thieves.

The superintendent of a South African diamond mine is using the X-ray to locate stones secreted on or in the persons of the native workmen. As each man passes before the powerful machine the examiner looks through his fluoroscope, swinging it rapidly up and down, taking in the entire body in a few seconds.

TEAM IS PICKED FOR FIRST GAME

Coach Millisor of Newark High Announces Positions First String Men Will Play Saturday.

The game Saturday between Newark High and Commerce high of Columbus promises to be one of the best of the season. A large crowd is expected out to cheer the boys on to victory.

With Stowell and Orr in the back field and Wilson and McGlade on the line the prospects are good. Following is the lineup: Wilson, L. E.; McGlade, L. T.; Ferris, L. G.; Kelley, center; Cain, R. G.; Tyrer, R. T.; Johnson, R. E.; Orr, G. B.; Jones-Montgomery, R. H.; Cook, L. H.; Stowell, T. B.

OPENING EXHIBITION GIVEN AT Y TONIGHT

Tonight at 7:30 the Y. M. C. A. will give its fall opening exhibitions showing the work in the gymnasium and the swimming pool. All the classes will be represented from the seniors to the preps though certain parts will be assigned to the various groups.

The opening number, the grand march, will be led by the preps followed by the juniors, then the employed boys, and the students, and then the seniors. Director Olson will lead the march in fancy twists and turns.

At the end of the march the classes will be placed in open formation ready for the mass calisthenic drill. Arm movements, and body movements singly and in combinations will make up the drill.

The volley ball game next on the program will be taken care of by the employed boys who will play the students. One 15-point game will be scheduled.

In the apparatus work, the senior group will exercise on the parallel bars, the students and employed boys on the back, the juniors on the horse, and the preps on the springboard.

The preps will have the larger part in the games and races. "Poison stick" will be shown by the preps. "Toll the bell" will also be shown by the preps as well as the "knapsack race." The juniors will show the straddle ball race and "pass the buck."

W. E. Grieser will dance the "Kamarska" in an especial costume. This dance is full of pep and dash characteristic of the Russian dances.

The final number of the gym program will be a short but snappy game of basketball put on by the seniors.

Following the gym exhibit there will be a short program in the swimming pool. As the boys who take part are to wear swimming suits, anybody may see the events in this part of the evening's performance.

The first event, follow the leader, will be led by Director Olson.

In the candle race each contestant will carry an unlighted candle to the end of the pool, there light it and return. The winner will be the one who first touches the starting mark with his candle lighted. The electric lights will be turned off for this event, the boys having to make their way only by the light from their candles.

In the "bag of gold" event all the contestants dive into the water as the bag containing pennies is thrown into the pool. The bag belongs to the boy who successfully brings it out of the pool. Every other fellow has the privilege to take the bag away until the lucky fellow gets out of the pool with the bag on his person.

The straight relay will wind up the swimming events as well as the evening's open house performance.

STRIKE SECRETARY TURNS OVER NEW LEAF, SAY FRIENDS

William Z. Foster.

William Z. Foster is secretary of the national committee which organized the steel strike. Four years ago Foster was preaching revolutionary doctrines, picturing paradise with no governments and the unions taking the place of courts in meting out justice. Now, however, he is a constructive trade unionist and has abandoned his radical views, according to the testimony of President Samuel Gompers of the A. F. of L. before the senate labor committee.

A MOST WONDERFUL ASSEMBLAGE OF WOMEN'S AND MISSES' FALL AND WINTER GARMENTS.

Supreme charm of design and effect perhaps best describes the beautiful new style creations in Suits and Coats for Fall and Winter of 1919-20.

And it also typifies the desire of every woman. Classic and beautiful is the straight line silhouette, the beauty and symmetry of line suggesting the Greek.

In some models the straight line is broken by the little string just suggesting the waist line.

Clever touches of embroidery, stitching, braid or fur are introduced in appropriate designs, lending attractiveness to the model.

Some of the Misses' Suits are gracefully flared, though jaunty and slim in effect.

The straight hanging voluminous Coat suggests warmth and comfort with large collars that roll high about the face, and large easy arm-holes.

Broad pockets and belts add a touch of smartness.

They cannot be fully described but must be seen and tried on. You are sure to find just the Suit or Coat that suits your fancy or requirements, both as to charming style and reasonableness in price.

We urge an early visit to our Cloak and Suit Department.
